Alter Ego Solutions:

Miracle, Solution and System Insa Sparrer, 2007 Solution focused systemic structural constellations for therapy and organisational change Constellation work is an effective way of externalising and working with problems in family and organisational life Solution focused practice is the art of building solutions as simply as possible The author combines the two and sets out a radical yet gentle form of practice The pioneering work of the author and her partner Matthias Varga von Kibed is highly influential in Europe and appears here in English for the first time *Decisions and Orders of the National Labor Relations Board* United States. National Labor Relations Board, 2013 **Things That Keep Us Busy** Lars-Erik Janlert, Erik Stolterman, 2025-05-27 An investigation of interactivity interfaces and their design and the webs of complex interactions that result We are surrounded by interactive devices artifacts and systems The general assumption is that interactivity is good that it is a positive feature associated with being modern efficient fast flexible and in control Yet there is no very precise idea of what interaction is and what interactivity means In this book Lars Erik Janlert and Erik Stolterman investigate the elements of interaction and how they can be defined and measured They focus on interaction with digital artifacts and systems but draw inspiration from the broader everyday sense of the word Viewing the topic from a design perspective Janlert and Stolterman take as their starting point the interface which is designed to implement the interaction They explore how the interface has changed over time from a surface with knobs and dials to clickable symbols to gestures to the absence of anything visible Janlert and Stolterman examine properties and qualities of designed artifacts and systems primarily those that are open for manipulation by designers considering such topics as complexity clutter control and the emergence of an expressive impressive style of interaction They argue that only when we understand the basic concepts and terms of interactivity and interaction will we be able to discuss seriously its possible futures *Azure*, 2004

Intentionality as Constitution Alberto Voltolini, 2024-06-28 This book develops a novel theory of intentionality It argues that intentionality is an internal essential relation of constitution between an intentional state and an object or between such a state and a possible state of affairs as subsisting The author's main claim is that intentionality is a fundamentally modal property hence a non scientifically natural property in that it does not supervene either locally or globally on its nonmodal physical basis This is the property primarily for an intentional mental state to be constituted by the entities it is about In the case of intentionality of reference such constituents are objects in the sense of individuals in the case of intentionality of content such constituents are possible states of affairs as subsisting Constitution is meant in a mereologically literal sense those constituents are essential parts of the relevant states As a result the theory claims not only that intentionality is relational but also that it is an internal essential relation holding between an intentional state and its object or proposition like content Intentionality as Constitution will be of interest to scholars and advanced students working in philosophy of mind philosophy of language metaphysics and cognitive science "Our House is Hell" Max H.
