**Bliss Brain** Dawson Church,2020-09-15 Award Winner in the Science category of the 2020 Best Book Awards sponsored by American Book Fest Award winning author and thought leader Dawson Church Ph D blends cutting edge neuroscience with intense firsthand experience to show you how you can rewire your brain for happiness starting right now Neural plasticity the discovery that the brain is capable of rewiring itself is now widely understood But what few people have grasped yet is how quickly this is happening how extensive brain changes can be and how much control each of us has over the process In Bliss Brain famed researcher Dawson Church digs deep into leading edge science and finds stunning evidence of rapid and radical brain change In just eight weeks of practice 12 minutes a day

using the right techniques we can produce measurable changes in our brains. These make us calmer, happier, and more resilient. When we cultivate these pleasurable states over time, they become traits. We don't just feel more blissful as a temporary state; the changes are literally hard-wired into our brains, becoming stable and enduring personality traits. The startling conclusions of Church's research show that neural remodeling goes much farther than scientists have previously understood: with stress circuits shriveling over time. Simultaneously, the Enlightenment Circuit associated with happiness, compassion, productivity, creativity, and resilience expands. During deep meditation, Church shows how the 7 neurochemicals of ecstasy are released in our brains. These include anandamide, a neurotransmitter that's been named the bliss molecule because it mimics the effects of THC, the active ingredient in cannabis. It boosts serotonin and dopamine; the first is an analog of psilocybin, the second of cocaine. He shows how cultivating these elevated emotional states literally produces a self-induced high. While writing *Bliss Brain*, Church went through a series of disasters, including escaping seconds ahead of a California wildfire that consumed his home and office and claimed 22 lives. The fire triggered a painful medical condition and a financial disaster. Through it all, Church steadily practiced the techniques of *Bliss Brain* while teaching them to thousands of other people. This book weaves his story of resilience into the fabric of neuroscience, producing a fascinating picture of just how happy we can make our brains, no matter what the odds.

[Influence in Action: How to Build Your Conversational Capacity, Do Meaningful Work, and Make a Powerful Difference](#) Craig Weber, 2019-08-23 The acclaimed author of *Conversational Capacity* shows you how to exercise more effective leadership and find deeper purpose and meaning by building your ability to engage in open, constructive, learning-focused dialogue when it counts. With his breakout book *Conversational Capacity*, Craig Weber revolutionized the concept of business communication by teaching a veritable conversational martial art that allows teams to perform well and remain open, balanced, and nondefensive as they tackle their most troublesome issues. His proven methods have been used to bolster the performance of executive groups and flight crews, as well as surgical units and CDC emergency response teams. Even more impressive: in over a dozen U.S. states, it is even helping Democratic and Republican legislators work together more effectively as they craft public policy. In *Influence in Action*, Weber goes deeper, showing you how to put these principles into practice using a step-by-step program that includes case studies, sample dialogues, skill-building exercises, and powerful conversation techniques. This book will help you balance candor and curiosity under pressure by honing your awareness, shifting your mindset, and sharpening your skills. Better still, it will help you do this as you inspire constructive change all around you. Research shows that people yearn for more meaningful work. They want to feel like active participants in the workplace. They're eager to be more engaged. They're raring to make a difference. And what is leadership if not influence in action.
