EFFECTIVE SMALL GROUP AND TEAM COMMUNICATION presents original research based upon the experiences of functioning groups. Offers skills and information designed to enhance your success in groups and teams. You'll learn how to facilitate positive group and team experiences and how in truly successful teams every member also takes on the roles of facilitator, contributor, participant, and leader. Just as important, you'll discover how diversity contributes to quality teamwork. The authors give you the tools you need to appreciate different points of view and understand how factors such as gender and culture influence every group dynamic. **Contemporary Business Communication** Scot Ober, 2000-05-09. Students don't have to be convinced of the need for competent communication skills. By the time they enter business communication classes, students know enough about the business environment to appreciate the critical role communication plays in the contemporary organization; they're also aware of the role communication will play in helping them secure an internship or get a job and be successful at work. To sustain this inherent interest, students need a textbook that is current, fast-paced, and interesting, just like business itself. Thus, a major objective of the book is to present comprehensive coverage of real-world concepts in an interesting and lively manner. This edition has been extensively revised to provide students with the skills they need to communicate effectively in the complex and ever-changing contemporary work environment. The revision was based on helpful feedback received from the current users around the country and indeed around the English-speaking world, changes in the discipline, and especially changes in the workplace itself. The following discussion highlights the features of this complete learning and teaching system: Business communication in context, technology-centered, Work team communication, Spotlights on contemporary issues, The 3Ps: problem, process, and product model, Annotated models and checklists, basic skills first, Unprecedented instructor support, Additional student support materials.
