Muses, Mystics, Madness: The Diagnosis and Celebration of Mental Illness Anna Klambauer, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Madness a word of many different meanings a condition with the potential to destroy harm liberate and inspire in equal measures This volume explores madness from an interdisciplinary perspective It emphasises the need for improved psychological treatment as well as the necessity to enter a dialogue with madness Apart from the potentially devastating impact mental illness might have on the patient the positive side of madness is also explored What if madness is a muse that inspires the artist to create a masterpiece What if madness is a mystic who connects us to a greater transcendental truth What if madness is a mantle that frees us to speak our minds in a hostile environment that threatens to punish us for our deviant thoughts It is this balancing act between creative and illuminating madness on the one and destructive and harmful insanity on the other hand that this volume explores
