Troubled

Waters Richard A. Bartlett, 1995 Since 1908 the corporate giant now known as Champion International has operated a pulp and paper mill along the banks of the Pigeon River in Canton North Carolina As a result during most of those years this once sparkling Appalachian stream has been virtually useless except as an industrial sewer foamy foul smelling molasses colored By polluting the river the mill that brought prosperity to Canton stunted the economic growth of the downstream communities in Cocke County Tennessee Although public pressure to clean up the Pigeon surfaced intermittently it has been only in the years since 1985 that two organizations the Pigeon River Action Group and the Dead Pigeon River Council have mounted a sustained drive against the ongoing pollution Today following a multimillion dollar upgrading of the Champion mill the Pigeon River is cleaner but hardly pristine Moreover there is little evidence that Champion carried out its modernization for any reasons other than economic ones *Introduction to Environmental Engineering &...* Gilbert M. Masters, 1998 *Introduction to Environmental Engineering* P. Aarne Vesilind, 1997 Vesilind also incorporates issues of ethics and ethical decision making throughout the text discussion and accompanying problems challenging the reader to consider the ethical ramifications of problem solutions The concept of materials balances unifies coverage of all types of environmental problems including ecosystem dynamics wastewater treatment and air pollution control *Environmental Engineering* Gerard Kiely, 1997
