Peterson's

Operations Management For Mbas Solutions:

Operations Management for MBAs Jack R. Meredith, Scott M. Shafer, 1999 Focus on the Needs of the MBA Student Meredith and Shafer introduce the key topics of operations management focusing on the needs of MBA students Contemporary concepts of relevance to MBA students such as the balanced scorecard core competency mass customization benchmarking business process design and enterprise resource planning SAP are also included More importantly the book is written with the marketing finance and other majors in mind emphasizing how a basic understanding of operations is important to all career paths Operations management for MBAs is also specifically designed to allow the professor to tailor their course around the students needs The streamlined coverage of concepts provides the instructor with the opportunity to integrate additional materials into the course such as cases and readings further enhancing student learning Furthermore having a text that solidly covers just the fundamental concepts provides students with the background needed to integrate these important supplementary materials Key Features of the Text Focus is placed on the needs and skills of MBA students The material is conceptual and strategic in nature making it more relevant and interesting to experienced students Contemporary real world topics such as revenue management service defections and supply chain management address students current needs A condensed and inexpensive treatment of the material allows the instructor to economically add supplementary material Quantitative material is presented only when it provides a better understanding of key concepts
