The Pattern 1853 Enfield Rifle:

The Pattern 1853 Enfield Rifle Peter Smithurst,2011-07-20 The standard issue to every soldier in the British Army which could out gun artillery and was used on virtually every continent to wage war and win battles throughout the 19th century *MAKING THE ENFIELD PATTERN 1853 RIFLE-MUSKET* PETER G. SMITHURST,2025 **Making the Enfield Pattern 1853 Rifle-Musket** Peter G. Smithurst,2025-05-30 Explores the transition from hand crafted to mechanized production of military firearms focusing on the French Model 1777 and Russian Model 1808 muskets A variety of factors surround military firearms they needed to be produced in large numbers to a standardised pattern at an affordable price This book examines the transition from traditional hand craft methods to the beginnings of mechanised manufacture using as examples the French Model 1777 and the Russian Model 1808 infantry muskets A number of factors led to this choice The French Model 1777 musket designed by Honor Blanc working under General Gribeauval contained many novel features which became blueprints for the arms of numerous countries and was copied in its entirety by Russia Another factor is that they are the only firearms whose manufacture is covered in contemporary accounts A third factor is that they provide contrasts in their methods of manufacture the French 1777 musket was largely produced by hand craft methods whereas in Russia we see the beginnings of extensive mechanisation in the early 19th century Another important aspect which appears is interchangeability the ability to exchange identical parts of identical mechanism without special adjustment This is a vital factor at the foundation of modern manufacturing and first appears in early 18th century France was pursued again by Blanc in 1777 and was picked up in Russia For the first time all these technologies are examined explained compared and contrasted in extensive detail **The English Cartridge** Brett Gibbons,2020-05-15 The Pattern 1853 Enfield rifle musket is one of the iconic weapons of the mid 19th century used extensively in the American Civil War the Indian Rebellion of 1857 and other conflicts While the history of the Enfield rifle is well known it was the ammunition developed for this rifle that was truly revolutionary Brett Gibbons traces the history of the muzzleloading cartridge used in the Enfield rifle from the early development of the Mini bullet in France to the dramatic yet ultimately unsuccessful attempt by the Confederate States to adopt the Enfield cartridge for the Southern armies in the American Civil War The role of the Enfield greased cartridge in the outbreak of the Indian Rebellion of 1857 1858 is carefully handled Crossing several oceans and continents from the sweltering heat of Central India in the summer of 1857 to the trenches of Petersburg in 1864 Brett Gibbons ties together the fascinating history of Enfield rifle musket ammunition Each development of the Enfield cartridge from 1853 to 1864 is covered with over 60 helpful illustrations [Point Five Seven Seven Pattern 1853 Rifle Musket and Snider-enfield](#) Ian D. the history of shoulder arms During the 1840s only a handful of American manufacturers were capable of producing significant quantities of arms having fully interchangeable components By the early 1850s at least one firm was producing rifles with close enough tolerances to be considered fully interchangeable And thanks to the invention of the expanding bullet rifled arms could be used by an army's entire infantry For the first time line infantry were equipped with arms capable of rapid reloading and of consistently hitting a man sized target at distances as great as three hundred yards Like the first two volumes of American Military Shoulder Arms this exhaustive reference work will be a must for serious arms collectors dealers and museum specialists

The snipers of today's Australian Army have learned the lessons of history and are held in the same high regard by friend and foe as their Gallipoli forebears. Snipers have become an essential force multiplier and have deployed on every operation since Somalia.
