This book shows you what works in practice, not in theory, in crucial areas such as people skills, career skills, mindset skills, organization skills, personal values, and behaviours. Each skill is presented in a concise, easy-to-follow format with an accompanying framework to help you deploy it in your own life. The skills are about the real challenges real leaders must master, and as you observe and record real-life examples of skills in action, you will be developing your own unique formula for success in the context that matters to you. Based on research from over a thousand leaders throughout the world at all levels in the public, private, and voluntary sectors, The Leadership Skills Handbook identifies the practical skills to make you even more successful and offers guidance on all key topics. This updated new edition includes exclusive new content on the changing demands of leadership in the 21st century and 10 whole new skills. These include the need to influence rather than control, how you get people to commit to your vision rather than comply, and how career is no longer a noun but a verb for new generations of workers.
