Mathcounts Cathy L. Williams, Mathcounts Foundation, 1995 **Mathematics Teaching in the Middle School**, 1994
Michigan Professional Engineer, 1995 Developing Mathematically Promising Students Linda Jensen
Sheffield, 1999 Developing mathematically promising students **The Mislabeled Child** Brock Eide, Fernette
Eide, 2006-08-01 An incredibly reassuring approach by two physicians who specialize in helping children overcome their
difficulties in learning and succeeding in school For parents teachers and other professionals seeking practical guidance
about ways to help children with learning problems this book provides a comprehensive look at learning differences ranging
from dyslexia to dysgraphia to attention problems to giftedness In *The Mislabeled Child* the authors describe how a proper
understanding of a child's unique brain based strengths can be used to overcome many different obstacles to learning They
show how children are often mislabeled with diagnoses that are too broad ADHD for instance or are simply inaccurate They
also explain why medications are often not the best ways to help children who are struggling to learn The authors guide
readers through the morass of commonly used labels and treatments offering specific suggestions that can be used to help
children at school and at home This book offers extremely empowering information for parents and professionals alike *The
Mislabeled Child* examines a full spectrum of learning disorders from dyslexia to giftedness clarifying the diagnoses and
providing resources to help The Eides explain how a learning disability encompasses more than a behavioral problem it is
also a brain dysfunction that should be treated differently **Creating Life-Long Learners** Todd Stanley, 2015-07-30
Wanted for the global workforce thinkers and those who can teach them Where K 12 instruction once centered on content
and memorization today's educators want most of all to teach their students to think critically and perceptively What better
way than with project based learning PBL Author Todd Stanley provides a teacher friendly step by step approach to
implementing PBL showing readers how to Use project and classroom management skills to create a positive productive
learning environment Develop curriculum around ten different project types Link projects with today's standards Teach
students how to effectively collaborate and bring out the best in each other Who's Who in the South and Southwest
2000-2001 Marquis Who's Who, Marquis Who's Who Staff, 2000-11 **Teaching Today's Mathematics in the Middle**
Grades Art Johnson, Kit Norris, 2006 *Teaching Today's Mathematics in the Middle Grades* provides current and future middle
school teachers with the mathematics content essential concepts methodology activities and resources to both learn and
teach mathematics in grades 5 to 8 The authors focus exclusively on the middle school learner and the middle school
mathematics curriculum Although each chapter discusses foundational mathematics concepts from earlier grades and
previews topics that will follow the middle grades the emphasis is on the middle school This selective focus allows for proper
development of critical topics in the middle school such as proportionality algebraic thinking and the integral role of
manipulatives Assessment practices and problem solving are also emphasized from the viewpoint of effective practices for

middle school students Unique Features React and Reflect features prompt classroom discussions by asking the reader to think independently regarding a statement issue or concern Try This features ask the reader to solve a problem first or extend the current discussion by working on an extension of a problem By completing the problem first teachers are putting themselves in the place of their students helping the teacher discover first hand common misconceptions Numerous exercises and activities appear at the end of each chapter to reinforce student understanding of various topics and ensure mastery of the mathematics content The NCTM Principles and Standards are emphasized throughout the book beginning with a discussion in Chapter 1 Each of the content chapters 6 11 opens with the relevant NCTM content standards for that chapter In addition marginal icons highlight areas within the text in which the NCTM process standards are discussed Reviewers rave From the content organization and approach it is evident that the authors have years of teaching experience This gives the text authority Marina Krause California State University Long Beach The authors do an excellent job of presenting in sequential order essential concepts methodology activities and technological resources essential to assist the beginning math teacher in preparing to teach in the middle school program Gerald Jarmon North Carolina Central University
