**deterioration**—Product spoilage, damage to the package, and so forth. This is one of the considerations in inventory carrying cost.

**deterministic models**—Models where no uncertainty is included (e.g., inventory models without safety stock considerations).

**deviation**—The difference, usually the absolute difference, between a number and the mean of a set of numbers, or between a forecast value and the actual value.

**Dewey's reflective thinking**—A problem solving technique with a formal sequence of (1) problem definition, (2) problem analysis, (3) brainstorming solutions, (4) development of proposed solutions, and (5) solution testing and validation.

**DFMA**—Abbreviation for design for manufacture and assembly.

**diagnostic journey and remedial journey**—A two-phase investigation used by teams to solve chronic quality problems. In the first phase—the diagnostic journey—the team journeys from the symptom of a chronic problem to its cause. In the second phase—the remedial journey—the team journeys from the cause to its remedy.

**diagnostic study**—A brief investigation or cursory methods study of an operation, process, group, or individual to

discover causes of operational difficulties or problems for which more detailed remedial studies may be feasible. An appropriate work measurement technique may be used to evaluate alternatives or to locate major areas requiring improvement.

**differentiated marketing**—Marketing to different market segments with a different marketing strategy for each segment.

**differentiated oligopoly**—A market in which a few companies produce partially differentiated products or services that are marketed within a given geographical area. Differentiation may be based on quality, features, styling, or services offered along with the product. See: industry structure types.

**differentiation strategy**—A business strategy that focuses on setting a product or service apart from the competition—focusing on making a product or service unique.

**digital cash or money**—An electronic currency equivalent of currency or coins.

**dimensions of quality**—An aspect of quality that is specified to enhance the ability to define quality. The most commonly used list for products was created by David Garvin. His dimensions are aesthetics, conformance, durability, features, perceived quality, performance, reliability, and serviceability. The most commonly used list for service quality was created by Parasuraman, Zeithamel, and Berry. This list is assurance, availability, completeness, empathy, pleasantness, professionalism, responsiveness, service reliability, tangibles, and timeliness.

**direct costing**—Syn: variable costing.

**direct costs**—1) In traditional cost accounting, variable costs that can be directly attributed to a particular job or operation. Direct material and direct labor are traditionally considered direct costs. 2) In activity-based cost (ABC) accounting, a cost that can specifically be traced and is economically feasible to track to a particular cost object (e.g., the units produced, a production line, a department, a manufacturing plant). In contrast, if the cost must be allocated across various cost objects, it is an indirect cost. Based on the cost object under consideration, the classification of direct and indirect can change. ABC accounting assumes that more costs traditionally viewed as fixed costs are variable and can be traced to cost objects.

**direct-deduct inventory transaction processing**—A method of inventory bookkeeping that decreases the book (computer) inventory of an item as material is issued from stock, and increases the book inventory as transactions processed for each item. The key concept here is that the book record is updated coincidentally with the movement of material out of or into stock. As a result, the book record is a representation of what is physically in stock. Syn: discrete issue.
