Home Office,1966 **The Discourse of Repatriation in Britain, 1845-2016** Daniel Renshaw,2021-03-04 Examining responses to migration and settlement in Britain from the Irish Famine up to Brexit The Discourse of Repatriation looks at how concepts of removal evolved in this period and the varied protagonists who have articulated these ideas in different contexts Analysing the relationship between discourse and action Renshaw explores how ideas and language originating on the peripheries of debate on migration and belonging can permeate the mainstream and transform both discussion and policy The book sheds light both on how the migrant other has been viewed in Britain historically and contemporaneously and more broadly how the relationship between state press and populace has developed from the early Victorian period onwards It identifies key junctures where the concept of the removal of othered groups has crossed over from the rhetorical to the actual and considers why this was the case Based on extensive original archival research the book reassesses modern British history through the lens of the most polarised attitudes to immigration and demographic change This book will be of use to readers with an interest in migration diaspora the development of populism and political extremes and more broadly the history of modern Britain *The Legislative Powers of the Commonwealth and the States of Australia* Sir John Quick,1919 *The Acts of the Parliament of the Commonwealth of Australia Passed in the Session of ...* Australia,1903 *Commonwealth Immigration* Bow Group,Christopher Brocklebank-Fowler,Christopher Bland,Tim Farmer,1965 *The Commonwealth Law Reports* Australia. Contemporary British Identity Christina Julios,2017-11-30 Against the background of an increasingly diverse British society this book traces the evolution of British identity in the twentieth century Debates exploring the nature of Britishness and multiculturalism are here deconstructed through a linguistic lens which considers the role played by the English language in shaping Britain s national identity Within this context two significant historical events are considered the expansionism of nineteenth century British Empire and the subsequent rise of the United States to the position of world superpower In charting the development of British nationhood over time the book identifies three contrasting public narratives each reflecting society s perceptions of the identity question at particular points in time a discourse of laissez faire at the turn of the century a discourse of multiculturalism in the ensuing decades and a discourse of integration during the closing years The book raises fundamental questions about who we are as a nation and how we got here It also provides clues as to the direction the prevailing public discourse on British identity is likely to take in the twenty first century
