Larose,Daniel T. Larose,2019-03-20 Learn data science by doing data science Data Science Using Python and R will get you plugged into the world s two most widespread open source platforms for data science Python and R Data science is hot Bloomberg called data scientist the hottest job in America Python and R are the top two open source data science tools in the world In Data Science Using Python and R you will learn step by step how to produce hands on solutions to real world business problems using state of the art techniques Data Science Using Python and R is written for the general reader with no previous analytics or programming experience An entire chapter is dedicated to learning the basics of Python and R Then each chapter presents step by step instructions and walkthroughs for solving data science problems using Python and R Those with analytics experience will appreciate having a one stop shop for learning how to do data science using Python and R Topics covered include data preparation exploratory data analysis preparing to model the data decision trees model evaluation misclassification costs na ve Bayes classification neural networks clustering regression modeling dimension reduction and association rules mining Further exciting new topics such as random forests and general linear models are also included The book emphasizes data driven error costs to enhance profitability which avoids the common pitfalls that may cost a company millions of dollars Data Science Using Python and R provides exercises at the end of every chapter totaling over 500 exercises in the book Readers will therefore have plenty of opportunity to test their newfound data science skills and expertise In the Hands on Analysis exercises readers are challenged to solve interesting business problems using real world data sets *Data Science at the Command Line* Jeroen Janssens,2021-08-17 This thoroughly revised guide demonstrates how the flexibility of the command line can help you become a more efficient and productive data scientist You ll learn how to combine small yet powerful command line tools to quickly obtain scrub explore and model your data To get you started author Jeroen Janssens provides a Docker image packed with over 100 Unix power tools useful whether you work with Windows macOS or Linux You ll quickly discover why the command line is an agile scalable and extensible technology Even if you re comfortable processing data with Python or R you ll learn how to greatly improve your data science workflow by leveraging the command line s power This book is ideal for data scientists analysts engineers system administrators and researchers Obtain data from websites APIs databases and spreadsheets Perform scrub operations on text CSV HTML XML and JSON files Explore data compute descriptive statistics and create visualizations Manage your data science workflow Create your own tools from one liners and existing Python or R code Parallelize and distribute data intensive pipelines Model data with dimensionality reduction regression and classification algorithms Leverage the command line from Python Jupyter R RStudio and Apache Spark *TV Guide* ,1988 Data Asia ,1977 **Becoming a Data Head** Alex J. Gutman,Jordan

Goldmeier,2021-04-13 Turn yourself into a Data Head You ll become a more valuable employee and make your organization more successful Thomas H Davenport Research Fellow Author of Competing on Analytics Big Data Work and The AI Advantage You ve heard the hype around data now get the facts In Becoming a Data Head How to Think Speak and Understand Data Science Statistics and Machine Learning award winning data scientists Alex Gutman and Jordan Goldmeier pull back the curtain on data science and give you the language and tools necessary to talk and think critically about it You ll learn how to Think statistically and understand the role variation plays in your life and decision making Speak intelligently and ask the right questions about the statistics and results you encounter in the workplace Understand what s really going on with machine learning text analytics deep learning and artificial intelligence Avoid common pitfalls when working with and interpreting data Becoming a Data Head is a complete guide for data science in the workplace covering everything from the personalities you ll work with to the math behind the algorithms The authors have spent years in data trenches and sought to create a fun approachable and eminently readable book Anyone can become a Data Head an active participant in data science statistics and machine learning Whether you re a business professional engineer executive or aspiring data scientist this book is for you *Cleaning Data for Effective Data Science* David Mertz,2021-03-31 Think about your data intelligently and ask the right questions Key FeaturesMaster data cleaning techniques necessary to perform real world data science and machine learning tasksSpot common problems with dirty data and develop flexible solutions from first principlesTest and refine your newly acquired skills through detailed exercises at the end of each chapterBook Description Data cleaning is the all important first step to successful data science data analysis and machine learning If you work with any kind of data this book is your go to resource arming you with the insights and heuristics experienced data scientists had to learn the hard way In a light hearted and engaging exploration of different tools techniques and datasets real and fictitious Python veteran David Mertz teaches you the ins and outs of data preparation and the essential questions you should be asking of every piece of data you work with Using a mixture of Python R and common command line tools Cleaning Data for Effective Data Science follows the data cleaning pipeline from start to end focusing on helping you understand the principles underlying each step of the process You ll look at data ingestion of a vast range of tabular hierarchical and other data formats impute missing values detect unreliable data and statistical anomalies and generate synthetic features The long form exercises at the end of each chapter let you get hands on with the skills you ve acquired along the way also providing a valuable resource for academic courses What you will learnIngest and work with common data formats like JSON CSV SQL and NoSQL databases PDF and binary serialized data structuresUnderstand how and why we use tools such as pandas SciPy scikit learn Tidyverse and BashApply useful rules and heuristics for assessing data quality and detecting bias like Benford s law and the 68 95 99 7 ruleIdentify and handle unreliable data and outliers examining z score and other statistical propertiesImpute sensible values into missing data and use sampling to fix imbalancesUse dimensionality reduction quantization one hot encoding and other feature engineering techniques to draw out patterns in your dataWork carefully with time series data performing de trending and interpolationWho this book is for This book is designed to benefit software developers data scientists aspiring data scientists teachers and students who work with data If you want to improve your rigor in data hygiene or are looking for a refresher this book is for you Basic familiarity with statistics general concepts in machine learning knowledge of a programming language Python or R and some exposure to data science are helpful *Progressive Grocer's Marketing Guidebook* ,2001 **Data Science at the Command Line** Jeroen Janssens,2014-09-25 This hands on guide demonstrates how the flexibility of the command line can help you become a more efficient and productive data scientist You ll learn how to combine small yet powerful command line tools to quickly obtain scrub explore and model your data To get you started whether you re on Windows OS X or Linux author Jeroen Janssens introduces the Data Science Toolbox an easy to install virtual environment packed with over 80 command line tools Discover why the command line is an agile scalable and extensible technology Even if you re already comfortable processing data with say Python or R you ll greatly improve your data science workflow by also leveraging the power of the command line Obtain data from websites APIs databases and spreadsheets Perform scrub operations on plain text CSV HTML XML and JSON Explore data compute descriptive statistics and create visualizations Manage your data science workflow using Drake Create reusable tools from one liners and existing Python or R code Parallelize and distribute data intensive pipelines using GNU Parallel Model data with dimensionality reduction clustering regression and classification algorithms **Ulrich's International Periodicals Directory** Carolyn Farquhar Ulrich,1999 Contains essential bibliographic and access information on serials published throughout the world

Whispering the Secrets of Language: An Emotional Quest through **Doing Data Science Straight Talk From The Frontline**

In a digitally-driven world where screens reign great and instant communication drowns out the subtleties of language, the profound strategies and emotional nuances hidden within phrases frequently get unheard. However, situated within the pages of **Doing Data Science Straight Talk From The Frontline** a captivating literary treasure blinking with raw thoughts, lies a fantastic journey waiting to be undertaken. Composed by a talented wordsmith, that wonderful opus invites visitors on an introspective journey, delicately unraveling the veiled truths and profound impact resonating within the very cloth of each word.
