At the Margins of Planning Stephen A. Jay, 2017-11-30 Offshore wind farms are being developed on a major scale around the UK coastline as part of the drive to increase renewable energy production This presents a new departure for the renewables sector Having fewer physical constraints than on land they avoid the planning system which currently ends at low water mark However planning authorities and the communities they represent are deeply concerned about the consequences of offshore wind farms along their coastal zones This book presents an empirical investigation into the attitudes of local planning authorities into the development of offshore wind farms examining these findings in light of wider debates about the use and management of the seas and the potential contribution of the mechanisms of planning The book also raises questions about the geographical limits of planning and how to go about establishing a form of spatial planning to cover the marine environment

Voice and Vision Mick Hurbis-Cherrier, 2012-11-12 Voice Vision is a comprehensive manual for the independent filmmakers and film students who want a solid grounding in the tools techniques and processes of narrative film in order to achieve their artistic vision This book includes essential and detailed information on relevant film and digital video tools a thorough overview of the filmmaking stages and the aesthetic considerations for telling a visual story The ultimate goal of this book is to help you develop your creative voice while acquiring the solid practical skills and confidence to use it Unlike many books that privilege raw technical information or the line producing aspects of production Voice Vision places creativity visual expression and cinematic ideas front and center After all every practical decision a filmmaker makes like choosing a location an actor a film stock a focal length a lighting set up an edit point or a sound effect is also an expressive one and should serve the filmmaker s vision Every decision from the largest conceptual choices to the smallest practical solutions has a profound impact on what appears on the screen and how it moves an audience In Practice sidebars throughout connect conceptual aesthetic and technical issues to their application in the real world Some provide a brief analysis of a scene or technique from easily rentable films which illustrate how a specific technology or process is used to support a conceptual narrative or aesthetic choice Others recount common production challenges encountered on real student and professional shoots which will inspire you to be innovative and resourceful when you are solving your own filmmaking challenges
