higher purpose that permeates throughout the organization while at the same time achieves outcomes that are far greater than one person's single contribution. Patwell's framework is effective in creating a shared vision that compels people to be engaged and involved in the change journey, developing internal leaders and strong cohesive and aligned teams to lead, manage and support the changes and developing strategies to effectively lead, manage and evaluate the human side of change. At the core of the framework are the Use of Self principles applied to the change process as seen through interviews with 24 multi-generational emerging current and long service leaders who explain why Use of Self remains a key element in successfully leading and managing change. The book also includes practical tools to help leaders and managers across the globe address change leadership challenges. Of special note is a two-year case study of the Senior Leadership Team in the City of Ottawa who led a significant city-wide culture shift using the framework.

Intimate Relationships and How to Improve Them Luciano L'Abate, Piero DeGiacomo, 2003-04-30 This volume integrates one contextual developmental and relational theory of personality socialization in the family and other settings with a complementary model of relational styles. Both the theory and the model share complementary characteristics of replicable operations in laboratory evaluation and in preventative and psychotherapeutic interventions in problems with intimate relationships. Further, both the theory and the model are linked to two major models of personality and intimate relationships: the circumplex and attachment respectively. The theory's 15 models are derived from a variety of social psychological sources including the social comparison model and resource exchange theory in social psychology. The complementary model Elementary Pragmatic owes its origins to communication and systems theories going beyond them in specificity and applications. Scholars and researchers looking for novel and original ideas demonstrating how to link theory with practice and evaluation with interventions will find this volume of interest.
