**Basic Income** Torry, Malcolm, 2021-08-27 Presenting a truly comprehensive history of Basic Income Malcolm Torry explores the evolution of the concept of a regular unconditional income for every individual as well as examining other types of income as they relate to its history Examining the beginnings of the modern debate at the end of the eighteenth century right up to the current global discussion this book draws on a vast array of original historical sources and serves as both an in depth study of and introduction to Basic Income and its history

**Unusually Cruel** Marc Morjé Howard, 2017-06-16 The United States incarcerates far more people than any other country in the world at rates nearly ten times higher than other liberal democracies Indeed while the U S is home to 5 percent of the world s population it contains nearly 25 percent of its prisoners But the extent of American cruelty goes beyond simply locking people up At every stage of the criminal justice process plea bargaining sentencing prison conditions rehabilitation parole and societal reentry the US is harsher and more punitive than other comparable countries In *Unusually Cruel* Marc Morjé Howard argues that the American criminal justice and prison systems are exceptional in a truly shameful way Although other scholars have focused on the internal dynamics that have produced this massive carceral system Howard provides the first sustained comparative analysis that shows just how far the U S lies outside the norm of established democracies And by highlighting how other countries successfully apply less punitive and more productive policies he provides plausible solutions to addressing America s criminal justice quagmire

**Media Today** Joseph Turow, 2019-08-28 This seventh edition of Joseph Turow s pathbreaking media textbook uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world It teaches students to think critically about the role of media and what these changes mean for their lives The book s media systems approach helps students to look carefully at how media content is created distributed and exhibited in the new world that the digital revolution has created The first part examines the media world as a whole while the second delves deep into key media industries such as the movie book and video game industries This new edition includes critical expanded coverage of social media as well as updated figures tables and pedagogy including key terms and further activities *Media Today* is an excellent introduction to the world of media in the digital age From news media to video games and social networking to mobile platforms it provides students with the tools they need to understand and critique the media they encounter and consume Extensive pedagogical materials also make this a highly teachable book well suited to the classroom The accompanying website has also been updated with new student and instructor resources including chapter recaps recommended readings and instructor s manual

**Outgrowing God?** Peter S. Williams, 2020-09-30 Join a cast of characters with different perspectives thinking through some of the biggest questions in life as they discuss atheist Richard Dawkins s book *Outgrowing God: A Beginner s Guide* Written in the form of a dialogue between members of a student book club *Outgrowing God: A Beginner s Guide to Richard Dawkins and the God Debate* encourages critical thinking about Professor

Dawkins s arguments concerning God Jesus and the Bible      Uncertain Allies Klaus Larres,2021-11-30 The United States has long been conflicted between promoting a united Western Europe in order to strengthen its defense of the West and fearing that a more united Western Europe might not submit to American political and economic leadership The era of wholehearted support for European unity was limited to the immediate postwar era The stances of the past three U S presidents Bush s unilateralism Obama s insistence on leading from behind and Trump s overt hostility toward the European Union were prefigured by Washington s economic and geopolitical strategies of the 1960s and 1970s Concentrating on the policies of Richard Nixon and Henry Kissinger Klaus Larres argues that their years in office were the major turning point when benign hegemony gave way to an attitude toward Europe that was seldom better than lukewarm frequently even outright hostile and that was returned in kind This book offers an unusually clear and comprehensive examination of transatlantic relations during the Nixon era      **Disruption and Digital Journalism** John V. Pavlik,2021-10-06 This book offers a timely insight into how the news media have adapted to the digital transformation of public communication infrastructure Providing a conceptual roadmap to understanding the disruptive innovative impact of digital networked journalism in the 21st century the author critically examines how and to what extent news media around the world have engaged in digital adaptation Making use of data from news media content production and distribution both off and online as well as user and financial data from the U S and internationally the book traces how the news media embraced and reacted to key developments such as the invention of the World Wide Web in 1989 and the launch of Google in 1998 Facebook in 2004 and the Apple iPhone in 2009 The author also highlights innovative organizations that have sought to reimagine news media that are optimized for digital online and mobile media of the 21st century demonstrating how these groups have been able to stay better engaged with the public Disruption and Digital Journalism is recommended reading for all academics and scholars with an interest in media digital journalism studies and technological innovation      *Bioengineering Abstracts* ,1984

Siegel, 2005 This best selling text presents criminal justice as a dynamic ever changing field emphasizing how the concepts and processes of criminal justice are constantly evolving Authors Siegel and Senna emphasize a comprehensive and balanced approach to the three major areas of criminal justice police courts and

corrections and to theory research and policy issues with a focus on generating students interest in the criminal justice field This text is the ultimate tool for complete student preparation and provides all of the up to date coverage of structural and procedural changes in the criminal justice system that instructors require ultimately helping students understand the critical issues in the field and the impact they have on the system Toward a Unified Theory of Development John P.

Spencer,Michael S. C. Thomas,James L. McClelland,2009 From William James to Sigmund Freud to Jean Piaget to B F Skinner scholars and parents have wondered how children move from the blooming buzzing confusion of infancy through the tumult of childhood and adolescence into adulthood Does development occur continuously over time or in a series of dramatic stages Is development driven by learning or by biological maturational processes What is the nature of experience and how does it generate change The study of development has always been organized around these big questions And answers to these questions have a profound influence on daily life forming a framework for how parents think about their own children and influencing both national policy and educational curricula This book defines and refines two major theoretical approaches within developmental science that address the central issues of development connectionism and dynamical systems theory Spencer Thomas and McClelland have brought together chapters that provide an introduction overview and critical evaluation of each approach including three sets of case studies that illustrate how both approaches have been used to study topics ranging from early motor development to the acquisition of grammar They also present a collection of commentaries by leading scholars which offer a critical view from both anoutsiders s and an insider s perspective The book is unique in the range of its treatment it begins to delineate how developmental science can incorporate advances within neuroscience and computational modeling and brings the new ideas of connectionism and dynamic systems theory into sharper focus clarifying their usefulness and explanatory power **The Breeder's Gazette** ,1909 *Emotion* Kaat Debo,Alistair O'Neill,Caroline Evans,2021-09-17 Understanding fashion is a way to understand and articulate both the hopeful and the uncomfortable truths of the world E MOTION looks at the way fashion has served as a visual signifier of contemporary instabilities concerns and emotions since the 1990s Fashion is emotion always in motion
