Mindfulness in Internet and New Media Wen-Ko Chiou, Chao Liu, Hao Chen, Shuhua Zhou, 2023-10-24 Mindfulness is about being aware in a certain way being consciously aware on purpose living in the present moment without mental judgment In addition to the in depth application of mindfulness in different subdisciplines of psychology e g social personality clinical developmental health organizational there is also a trend toward cross fertilization with other social and behavioral disciplines e g design kinesiology sociology family studies education anthropology neuroscience philosophy economics medicine organizational science However the application of mindfulness in the field of communication is limited With the rapid development of the Internet and new media the study of Internet communication is growing rapidly The Internet and new media make it easy to connect with others explore a new world and regard cyberspace as an extension of one s own thoughts and personality Nevertheless when people use the Internet and new media mindless they will easily experience the social effects on their virtual selves and encounter psychological problems e g network morality network anxiety network pornography network addiction and cyberbullying which has become a widespread and serious problem As an important part of positive psychology mindfulness intervention has been proved to help improve a series of negative psychological states and promote positive emotions and subjective well being However what theoretical and practical contributions can mindfulness in the Internet and new media bring remains unknown Thus this Research Topic focuses on the influence and intervention of mindfulness on the psychological problems caused by the network new media communication We welcome high quality studies using a variety of research methods including quantitative qualitative mixed methods and reviews on the second generation of mindfulness interventions and other

meditation based interventions e.g. focused attention meditation, transcendental meditation and loving kindness meditation. This Research Topic encourages submissions that cover but are not limited to the following topics: 1 The internet and new media guided mindfulness and loving kindness meditation practice; 2 Mindfulness and interpersonal communication in the network; network trust; network security; network intimacy; 3 Mindfulness and network clustering behavior; 4 Mindfulness and online consumer psychology; 5 Mindfulness and cyber moral psychology; cyberbullying; cyber altruism and prosocial behavior; 6 Mindfulness and online pornography; 7 Mindfulness and internet addiction; 8 Mindfulness and online psychological counseling; 9 Mindfulness and new media anxiety.

Handbook of Research on New Media, Training, and Skill Development for the Modern Workforce Mentor, Dominic, 2022-05-13. The abrupt shift to online learning brought on by the COVID-19 pandemic revealed the need for the adoption and application of new media virtual training and online skill development for the modern workforce. However, organizations are grappling with unanticipated complexities and many have recognized the gaps between online and in-person competencies and capabilities with unaddressed needs. There is an urgent need to bridge this gap and organically grow engagement and connectedness in the digital online space with new media tools and resources. The *Handbook of Research on New Media Training and Skill Development for the Modern Workforce* exhibits how both business and educational organizations may utilize the new media computer technology to best engage in workforce training. It provides the best practices to aid the transition to successful learning environments for organizational skill development and prepare and support new media educational engagement as the new norm in all its forms and finer nuances. Covering topics such as occupational performance assessment, personal response systems and situationally aware human computer interaction, this major reference work is an essential tool for workforce development organizations, business executives, managers, communications specialists, students, teachers, government officials, pre-service teachers, researchers and academicians.
