Frank Carrano,   Data Abstraction and Problem Solving with Java Frank M. Carrano,Janet J. Prichard,2006 The second
edition in Java of the classic Walls and Mirrors approach to programming designs solutions to problems using both data
abstraction the walls and recursion the Mirrors Data Abstraction and Problem Solving with Java Walls and Mirrors
2eprovides a focus on the important concepts of data abstraction and data structures in a way that beginning programmers
find accessible The first part of the book covers problem solving techniques including a review of Java fundamentals
principles of programming and software engineering recursion and data abstraction and linked lists Later chapters focus on
problem solving with abstract data types including stacks queues algorithm efficiency and sorting trees and graphs This
edition contains enhanced material on OO implementation MARKET Readers searching for problem solving solutions through
abstraction algorithmic refinement data structures and recursion   Data Abstraction and Problem Solving with C++ Frank
M. Carrano,2006-07 The classic best selling Data Abstraction and Problem Solving with C Walls and Mirrors book provides a
firm foundation in data abstraction that emphasizes the distinction between specifications and implementation as the basis
for an object oriented approach This new edition offers the latest C features and an introduction to using Doxygen a
documentation generator for C enhanced coverage of Software Engineering concepts and additional UML diagrams   **Data
Abstraction and Problem Solving with Java** Frank M. Carrano,Janet J. Prichard,2001 This work focuses on the important
concepts of data abstraction and data structures It also introduces students to java classes along with other basic concepts of
object oriented programming including inheritance polymorphism interfaces and packages   **Data Abstraction and
Problem Solving with Java: Walls and Mirrors** Janet Prichard,Frank M. Carrano,2014-09-18 This edition of Data
Abstraction and Problem Solving with Java Walls and Mirrors employs the analogies of Walls data abstraction and Mirrors
recursion to teach Java programming design solutions in a way that beginning students find accessible The book has a
student friendly pedagogical approach that carefully accounts for the strengths and weaknesses of the Java language With

Solving with Java** Janet J. Prichard,2013   Data Abstraction and Problem Solving with C++ Frank M. Carrano,1995 This
work provides novice and professional programmers with a bridge from traditional programming methods to the object

oriented techniques available in C It clearly explains encapsulation and C classes which are then used throughout to implement abstract data types such as lists stacks queues trees and tables Inheritance polymorphism templates and operator overloading are explained both conceptually and through examples The work offers early extensive coverage of recursion and uses the technique through many examples and exercises It sets out to provide a firm foundation in data abstraction emphasizing the distinction between specification and implementation **Data Structures and Algorithms in Java** Robert Lafore,2017-09-06 Data Structures and Algorithms in Java Second Edition is designed to be easy to read and understand although the topic itself is complicated Algorithms are the procedures that software programs use to manipulate data structures Besides clear and simple example programs the author includes a workshop as a small demonstration program executable on a Web browser The programs demonstrate in graphical form what data structures look like and how they operate In the second edition the program is rewritten to improve operation and clarify the algorithms the example programs are revised to work with the latest version of the Java JDK and questions and exercises will be added at the end of each chapter making the book even more useful Educational Supplement Suggested solutions to the programming projects found at the end of each chapter are made available to instructors at recognized educational institutions This educational supplement can be found at www prenhall com in the Instructor Resource Center From Object-Orientation to Formal Methods Olaf Owe,Stein Krogdahl,Tom Lyche,2004-03-09 After Ole Johan s retirement at the beginning of the new millennium some of us had thought and talked about making a Festschrift in his honor When Donald Knuth took the initiative by sending us the rst contribution the p cess began to roll In early 2002 an editing group was formed including Kristen Nygaard who had known Ole Johan since their student days and with whom he had developed the Simula language Then we invited a number of prominent researchers familiar with Ole Johan to submit contributions for a book hon ing Ole Johan on the occasion of his 70th birthday Invitees included several members of the IFIP 2 3 working group a forum that Ole Johan treasured and enjoyedparticipating in throughouthis career In spite of the shortdeadline the response to the invitations was overwhelmingly positive The original idea was to complete the book rather quickly to make it a gift he could read and enjoy because by then he had had cancer for three years and his health was gradually deteriorating Kristen had been regularly visiting Ole Johan who was in the hospitalat that time and they were workingon their Turing award speech Ole Johan was grati ed to hear about the contributions to this book but modestly expressed the feeling that there was no special need to undertake a book project on his behalf Peacefully accepting his destiny Ole Johan died on June 29 2002 Data Abstraction and Problem Solving with C++ Frank M. Carrano,Janet J. Prichard,2005 Designed for a second course in computer science this textbook introduces the data abstraction technique for building walls between a program and its data structures and presents various abstract data types and their implementations as C classes The author evaluates the advantages and disadvantages of array based and pointer based data structures and explains the concepts behind recursion inheritance
