

ARTIFICIAL INSEMINATION

Artificial insemination is an assisted reproduction procedure in which sperm is introduced into the woman's reproductive tract artificially, with the aim of achieving pregnancy.

It can be done by directly placing sperm into the uterus or in more specific instances, such as intrauterine insemination.

This technique is used by couples facing difficulties conceiving naturally, offering the opportunity to increase the chances of fertilization.

Artificial insemination is a safe and effective method that has helped many couples fulfill their desire to become parents.
