Remember that an artist's drawing does not always have to be finished. The finished work can be the result of the process.

### PROBLEM 1.2

#### Domestic Interior, Women

Make a drawing in which you combine figures in space in the manner of your studies in this chapter. Do not include any of the previous studies.

Use charcoal on paper for drawing of a figure. Draw composition studies corresponding to the ideas in drawing (Figure 1.11) from Museum of Contemporary Art, Chicago. Do not include any of the previous studies. Develop ideas by the most suitable composition after a preliminary composition study. The composition is the result of the process. Remember to check your drawing from and compare it to the work in this book.

### PROBLEM 1.3

#### Domestic Interior

Make a charcoal composition of two contemporary figures in space in a domestic space. Do not use any examples of the drawings of those in the book during this (Figure 1.12), in which the style shows continuous work in the field and your drawing is made a method, single composition from 100 to 140 cm, and compare it to the work in this book.

Tarallo, 2012-04-09 How public affairs are run depends upon the degree of authority and control central government decides to relinquish to regional and local governments and the extent to which it favors citizen involvement in the governing process Public administrators do not operate in a vacuum The context within which decision making takes place greatly influences

public administrators approach to public issues. Consequently, what government decides to do and how it decides to carry it out affects the lives of people and how people perceive their role in the unfolding of public affairs. While public administration varies from one country to another, public administrators inevitably face similar challenges. Running a government is not easy; it is complex, dynamic, contested, supported, subject to special interests, both demand and supply driven, just to name a few. In executing government functions, public administrators unsurprisingly contend with major decision-making questions. While obviously not exhaustive, this book addresses some key issues challenging practitioners. These challenges include questions on what gets included in the policy agenda, questions on policy response to problems through adoption and/or adaptation of exogenous policies, questions on the dangers of displacing policy goals, questions on transferring government activities to specialized agencies, questions on decentralizing powers to regional and local governments, questions on combating corruption, and questions on managing public resources. It is widely recognized that policy implementation is much more challenging than its design. Nonetheless, it is the manner in which public administrators address these challenges that creates opportunities for a more effective long-term policy prioritization, design, and coordination, a more effective and inclusive public governance, and a more effective use of public resources for the delivery of needed public services. ~Aø

*CONTEMPORARY APPROACH - DRAWING*. CLAUDIA W. BETTI, TEEL SALE, 1980. *Childhood Well-being and Resilience*. Zeta Williams-Brown, Sarah Mander, 2020-10-29. This book examines the ways in which well-being affects educational outcomes. Using an ecological approach, the book defines what we mean by well-being and resilience in education and how this relates to policy and children and young people's rights. The book considers strategies utilised by the education, health, voluntary, and private sectors which promote well-being and resilience for children and young people from the early years to adulthood. This book also explores societal factors such as poverty and family well-being. *Childhood Well-being and Resilience* goes on to provide examples of practice interventions inside and outside the classroom. It represents a sea change in professional approaches to well-being and resilience as protective factors against poor mental health. It includes chapters on key topics such as: The concept of child well-being, resilience, and the rights of the child; Peer interaction and well-being; Social media and mental health; Well-being and outdoor learning; Mindfulness for young children; International policy and child well-being. This book supports professionals to increase their knowledge, establish a skill set, and build their confidence, which can enable children and young people to develop good levels of well-being and to improve their resilience. Including reflective questions and case studies, *Childhood Well-being and Resilience* is essential reading for undergraduate students studying Early Childhood Studies, Education Studies, Teaching Awards, and Family and Community Studies.
