Anna Claydon, Colin Johnson, 2025-06-18 This book is explicitly designed to echo the structure of the highly successful book How to Get a PhD the 2022 edition of which has been co authored by Colin Johnson As such the book functions primarily as a holistic guide for students to all stages of their study at master's level which is the biggest growth area in UK higher education The book seeks to address students who are studying in many different academic contexts and will engage with differences in disciplines national contexts and experience throughout Like How to Get a PhD this book is designed both to be a book that students can read in order to understand the entirety of the master's process as well as a well organised companion that students can refer to for advice relevant to different stages of their studies The book will also contain advice for supervisors of master's dissertations and staff who are in charge of running master's degree programmes and advice for universities more broadly about strategic issues around master's degrees This rationale behind this connects to the fact that many academics use How
