Framework Children Bedtime Story:

The Parent's Journal Guide to Raising Great Kids Bobbi Conner, 1997 The Parent's Journal Guide to Raising Great Kids is a comprehensive book of ingredients for raising children. It is based upon Bobbi Conner's experience as a mother and upon the ten years of research and broadcast interviews Bobbi has conducted in putting together The Parent's Journal, her award-winning public radio show that reaches 1.4 million parents a week. The Parents Journal Guide identifies the most important things every child needs in order to develop and thrive and presents easy everyday opportunities to meet these needs through the ordinary daily routine of parents and children. Through over 700 in-depth interviews on topics ranging from temper tantrums to kids in sports to baby's first words to homework hassles, Bobbi has sifted through a vast assortment of parenting information to find the best tried and true parenting wisdom. Each chapter of The Parents Journal Guide is formatted to include three distinctive accessible components: What Kids Need, Parent's Job Description, and Everyday Opportunities, and will include information targeting the different stages in your child's life.

Memory Studies in the Digital Age D. Sudha Rani, Rachel Irdaya Raj, 2025-02-25 This interdisciplinary volume attempts to gauge the individual and social issues related to memory with an understanding of memory studies as an independent body of scholarship. It draws on multiple fields of knowledge like popular culture, history, literature, oral cultures, and storytelling, which facilitates a panoramic view of memory studies. This book investigates the intersection between memory studies, oral literature, and digital technology. It is also informed by the consciousness of memory in the digital age, which plays an integral role in what is remembered, forgotten, the form in which such memories are stored, and how they might be retrieved in the future. This book will be an invaluable resource for those involved in research from undergraduate to post-doctoral level. This includes sociologists, psychologists, historians, artists, academicians, as well as research scholars from other disciplines.

The Transformative Potential of LGBTQ+ Children's Picture Books Jennifer Miller, 2022-05-23 2023 CHOICE Outstanding Academic Title In The Transformative Potential of LGBTQ Children's Picture Books, Jennifer Miller identifies an archive of over 150 English language children's picture books that explicitly represent LGBTQ identities, expressions, and issues. This archive is then analyzed to explore the evolution of LGBTQ characters and content from the 1970s to the present. Miller describes dominant tropes that emerge in the field to analyze historical shifts in representational practices, which she suggests parallel larger sociocultural shifts in the visibility of LGBTQ identities. Additionally, Miller considers material constraints and possibilities affecting the production, distribution, and consumption of LGBTQ children's picture books from the 1970s to the present. This foundational work defines the field of LGBTQ children's picture books thoroughly yet accessibly. In addition to laying the groundwork for further research, The Transformative Potential of LGBTQ Children's Picture Books presents a reading lens of critical optimism used to analyze the transformative potential of LGBTQ children's picture books. Many texts remain attached to heteronormative family forms and raced and classed models of success. However, by considering what these books put into

the world as well as problematic aspects of the world reproduced within them Miller argues that LGBTQ children's picture books are an essential world making project and seek to usher in a transformed world as well as a significant historical archive that reflects material and representational shifts in dominant and subcultural understandings of gender and sexuality
