Leadership Handbook How To:

The Cultural Leadership Handbook Mr John Holden, Mr Robert Hewison, 2012-08-28 Leadership has never been more important to the cultural industries. The arts together with museums and heritage sites play a vital part in keeping economies going and more importantly in making life worth living. People in the sector face a constant challenge to find support for their organizations and to promote the value of culture. Leadership and management skills are needed to meet the mission of creative arts and cultural organizations and to generate the income that underpins success. The problem is where can you learn these essential skills. The Cultural Leadership Handbook written by Robert Hewison and John Holden, both prime movers in pioneering cultural leadership programmes, defines the specific challenges in the cultural sector and enables arts leaders to move from just administration to becoming cultural entrepreneurs, turning good ideas into good business. This book is intended for anyone with a professional or academic interest anywhere in the cultural sector anywhere in the world. It will give you the edge enabling you to show creative leadership at any level in a cultural organization regardless of whether your particular interest is the performing arts, museums and art galleries, heritage, publishing, films, broadcasting or new media.

The Leadership Handbook John C. Maxwell, 2008 The path to leadership begins with a question only few of us ask: How do I lead myself? John Maxwell presents twenty-six insights not just for those who aspire to positions of leadership but also for veteran leaders who aim to build and improve upon the steps that led them to the front of the line. Sound leadership will impact any endeavor but sound leaders are prepared for risk and, importantly, failure just as they point the way toward achievement. With application exercises and a Mentoring Moment to accompany each chapter, The Leadership Handbook presents a road map for a path many may cross but few choose to follow. A leader, counsels Maxwell, never has to recover from a good start. Publisher's website
