Behen, 2013-06-17 Learn how to integrate pop culture and technology into school library programs and classrooms and make today's digital content mobile devices and students changing interests work to the educator's advantage Today's school libraries need to evolve and meet the needs of 21st century students the instruction programming and library services must be relevant to today's learners Additionally the interactions between educators and the students are what make the critical difference in the students learning and turn the library and classroom into places where they will find assimilate experience and understand information This book provides practical strategies for using pop culture and technology trends to connect with easily distracted middle and high school students and hold their attention Author Linda D Behen addresses why school libraries are in transition and why there is a need for dramatic change She discusses the evolution of all libraries in response to digital content ubiquitous mobile devices such as smart phones iPads and other tablet computers patrons changing interests and the ways in which schools and school libraries have found to effectively adapt to technology changes and student needs This book is essential for middle and high school librarians and educators library school students and instructors and young adult public librarians

Media Education for a Digital Generation Julie Frechette, Rob Williams, 2015-10-14 Media education for digital citizenship is predicated upon the ability to access analyze evaluate and produce media content and communication in a variety of forms While many media literacy approaches overemphasize the end goal of accessing digital media content through the acquisition of various technology software apps and analytics this book argues that the goals for comprehensive and critical digital literacy require grasping the means through which communication is created deployed used and shared regardless of which tools or platforms are used for meaning making and social interaction Drawing upon the intersecting matrices of digital literacy and media literacy the volume provides a framework for developing critical digital literacies by exploring the necessary skills and competencies for engaging students as citizens of the digital world

Navigating Fake News, Alternative Facts, and Misinformation in a Post-Truth World Dalkir, Kimiz, Katz, Rebecca, 2020-02-28 In the current day and age objective facts have less influence on opinions and decisions than personal emotions and beliefs Many individuals rely on their social networks to gather information thanks to social media's ability to share information rapidly and over a much greater geographic range However this creates an overall false balance as people tend to seek out information that is compatible with their existing views and values They deliberately seek out facts and data

that specifically support their conclusions and classify any information that contradicts their beliefs as false news Navigating Fake News Alternative Facts and Misinformation in a Post Truth World is a collection of innovative research on human and automated methods to deter the spread of misinformation online such as legal or policy changes information literacy workshops and algorithms that can detect fake news dissemination patterns in social media While highlighting topics including source credibility share culture and media literacy this book is ideally designed for social media managers technology and software developers IT specialists educators columnists writers editors journalists broadcasters newscasters researchers policymakers and students Digital Media and Social Connection in the Lives of Children, Adolescents and Families Yalda Uhls,Kaveri Subrahmanyam,Amanda Third,2022-11-29
