### **You Are the Driver!**

You will soon become a driver like the person in the picture. To be a safe driver, you must know the location and function of your vehicle's control devices. Since vehicles differ in so many ways, it is important that you read and understand your owner's manual.

You also must know the procedures to follow when entering, starting, moving, stopping, and leaving your vehicle. What should you check before entering the vehicle? What is the odometer? What should you do before starting the engine? This chapter describes a vehicle's instruments and control devices and how to use them.
