Crossover Picturebooks Sandra L. Beckett, 2013-06-17 This book situates the picturebook genre within the widespread international phenomenon of crossover literature examining an international corpus of picturebooks including artists books wordless picturebooks and celebrity picturebooks that appeal to readers of all ages Focusing on contemporary picturebooks Sandra Beckett shows that the picturebook has traditionally been seen as a children's genre but in the eyes of many authors illustrators and publishers it is a narrative form that can address any and all age groups Innovative graphics and formats as well as the creative often complex dialogue between text and image provide multiple levels of meaning and invite readers of

all ages to consider texts that are primarily marketed as children's books. The interplay of text and image that distinguishes the picturebook from other forms of fiction and makes it a unique art form also makes it the ultimate crossover genre. Crossover picturebooks are often very complex texts that are challenging for adults as well as children. Many are characterized by difficult adult themes, genre blending, metafictional discourse, intertextuality, sophisticated graphics, and complex text-image interplay. Exciting experiments with new formats and techniques, as well as novel interactions with new media and technologies, have made the picturebook one of the most vibrant and innovative contemporary literary genres, one that seems to know no boundaries. Crossover Picturebooks is a valuable addition to the study of a genre that is gaining increasing recognition and appreciation and contributes significantly to the field of children's literature as a whole.

Riot On Sunset Strip Domenic Priore, 2007-07-12. On the Sunset Strip in Los Angeles in 1965 and 1966, an electrifying scene appeared out of nowhere, exploded into creativity, and then just as suddenly vanished. So much remarkable music, art, and social revolution came from one place at one time, it's difficult now to grasp how it all happened. In that moment, rock n roll displaced movies as the centre of action in Hollywood. This book tells the story of that astonishing time. The nightlife was a heady mix of modernist design, pop art, and beat aesthetics. From the moment The Byrds debuted at the Apollo on March 26th, 1965, with Bob Dylan joining them on stage right up to the demonstrations of November 1966, Sunset Strip nightclubs nurtured and broke The Doors, Love, Buffalo Springfield, Frank Zappa's Mothers of Invention, Captain Beefheart, His Magic Band, The Turtles, The Mamas & The Papas, and many others. The Strip was a hotbed for garage punk bands such as The Standells, The Seeds, The Music Machine, and The Electric Prunes. Folk rock and psychedelia were born there, and it was a favourite hangout and inspiration for The Beatles, The Rolling Stones, Them, The Velvet Underground, and The Yardbirds. Pop art and rock n roll combined, and the new fusion quickly permeated television, animation, and New Hollywood's indie cinema.

Books in Print, 1994 **Communist Propaganda at School** Joanna Wojdon, 2021-05-10. Communist Propaganda at School is based on an analysis of reading primers from the Soviet bloc and recreates the world as presented to the youngest schoolchildren who started their education between 1949 and 1989 across the nine Eastern European countries. The author argues that those first textbooks, from their first to last pages, were heavily laden with communist propaganda, and that they share similar concepts, techniques, and even contents, even if some national specificities can be observed. This volume reconstructs the image of the world presented to schoolchildren in the first books they were required to read in their school life and argues that the image was charged with communist propaganda. The book is based on the analysis of over sixty reading primers from nine countries of the Soviet bloc: Albania, Bulgaria, Czechoslovakia, the German Democratic Republic, Hungary, Poland, Romania, the Soviet Union, and Yugoslavia from the period. Written with simplicity and straightforwardness.

this book will be a valuable resource not only to international academics dealing with the issues of propaganda censorship education childhood and everyday life under communism in Eastern and Central Europe but can also academics dealing with education under communism or with the content of primary education It also brings educational experiences of the Soviet bloc to international researchers in particular to researchers of education under totalitarian and authoritarian regimes
