Biological Process Design for Wastewater Treatment Larry D. Benefield, Clifford W. Randall, 1985 *Biological Process Design for Wastewater Treatment* Larry D. Benefield, Clifford W. Randall, 1980 *Biological Wastewater Treatment Process Design Calculations* Harlan Bengtson, 2017-01-07 Description of three biological wastewater treatment processes activated sludge MBBR moving bed biofilm reactor and MBR membrane bioreactor Each of these processes is described and discussed in turn For each of them there is background information about the process a general description of the process and description of the process design calculations for that process along with examples illustrating those calculations Use of spreadsheets for the calculations is covered also including numerous screenshots of spreadsheets set up to make the various calculations discussed in the book Design Guides for Biological Wastewater Treatment Processes Joseph F. Malina, 1972 The report provides a set of guidelines for the design of biological processes for the treatment of municipal wastewater The equations and factors which must be considered in the design of the activated sludge system the contact stabilization system trickling filter plants aerated lagoons and waste stabilization ponds are identified The applicability and limitations of each system and mathematical model of each process are established Operating data from treatment plants where sufficient applicable data were recorded were used to develop rate constants and other coefficients required for application of the mathematical models and other design of treatment plants The significant design considerations are discussed design procedures are outlined and design calculations are developed Design Guides for Biological Wastewater Treatment Processes: Performance of Biological Treatment Processes; Final Report , 1972 *Design Guides for Biological Wastewater Treatment Processes* , 1972 Proceedings-- First International Conference on Fixed-Film Biological Processes , 1982 *Design Guides For Biological Wastewater Treatment Processes* United States.
