Lue, Andrew Berry, Andrew Biewener, Brian Farrell, Noel Michele Holbrook, Naomi Pierce, Alain Viel, 2013-05-01 Biology How Life Works is the first project to develop three pillars the text the visual program and the assessment at the same time All three pillars were developed in parallel to make sure that each idea is addressed in the most appropriate medium and to ensure authentic integration These three pillars are all tied to the same set of core concepts share a common language and use the same visual palette In this way the text visual program and assessments are integral parts of student learning rather than just accessories to the text This multi media pack contains the print textbook and LaunchPad access for an additional 5 per student LaunchPad is an interactive online resource that helps students achieve better results LaunchPad combines an interactive e book with high quality multimedia content and ready made assessment options including LearningCurve our adaptive quizzing resource to engage your students and develop their understanding Features include Pre built Units for each chapter curated by experienced educators with media for that chapter organized and ready to assign or customize to suit your course Intuitive and useful analytics with a Gradebook that lets you see how your class is doing individually and as a whole A streamlined and intuitive interface that lets you build an entire course in minutes LearningCurve in Launchpad In a game like format LearningCurve adaptive and formative quizzing provides an effective way to get students involved in the coursework It offers A unique learning path for each student with quizzes shaped by each individual s correct and incorrect answers A Personalised Study Plan to guide students preparation for class and for exams Feedback for each question with live links to relevant e book pages guiding students to the reading they need to do to improve their areas of weakness For more information on LaunchPad including how to request a demo access our support centre and watch our video tutorials please visit here Request a demo *Biology: How Life Works, Volume 2* James Morris, Daniel Hartl, Andrew Knoll, Robert Lue, Melissa Michael, Andrew Berry, Andrew Biewener, Brian Farrell, N. Michele Holbrook, Jean Heitz, Mark Hens, John Merrill, Randall Phillis, Debra Pires, Elena Lozovsky, Jessica Liu, 2019-01-04 **Biology: How Life Works** James Morris, Daniel Hartl, Andrew Knoll, Robert Lue, Melissa Michael, Andrew Berry, Andrew Biewener, Brian Farrell, N. Michele Holbrook, Jean Heitz, 2019-02-05 BIOLOGY HOW LIFE WORKS has been a revolutionary force for both instructors and students in the majors biology course It was the first truly comprehensive set of integrated tools for introductory biology seamlessly incorporating powerful text media and assessment to create the best pedagogical experience for students THE VISUAL PROGRAM The already impressive visual program has been greatly improved and expanded The powerful Visual Synthesis tools have been reimagined allowing for more flexibility for both students and instructors A new Tour Mode allows for learning objective driven tours of the material and deep linking from the eText allow the student to jump straight from the text into a rich visual representation of the content Instructors can also create customized tours to use for engaging in class presentations And

finally new animations have been added to the library including a new 3D animation to support the animal physiology content

**A FOCUS ON SCIENTIFIC SKILLS** The third edition does even more to teach students the skills they need to think like a scientist along with the content they need to move beyond the introductory course New Skills Primers are self paced tutorials that guide students to learn practice and use skills like data visualization experimental design working with numbers and more New How Do We Know activities accompany the feature in the text and teach students to understand scientific inquiry

**THE HUB** The best teaching resources in the world aren't of use if instructors can't find them The HUB provides a one stop destination for valuable teaching and learning resources including all of our well vetted in class activities

**IMPROVED ORGANIZATION OF TOPICS** We implemented several organizational changes based on extensive user feedback with the goal of creating an improved narrative for students and a more flexible teaching framework for instructors A new chapter on Animal Form Function and Evolutionary History leads off the animal anatomy and physiology chapters to provide a whole body view of structure and function and to provide better context for the more specific systems in following chapters The ecology coverage has been enriched and reorganized for a more seamless flow A new chapter on Ecosystem Ecology combines ecosystem concepts formerly housed in separate chapters to present a more cohesive view of the flow of matter and energy in ecosystems All of these changes and improvements represent the next step in the life of Biology

**How Life Works** We think we have created the best learning resource for introductory biology students and we think instructors will find joy in the improvements they can make in their classes with these materials
