Dynamic Management of Growing Firms Lorraine Uhlaner, John Psarouthakis, 2025-12-10 This innovative volume offers a step-by-step planning strategy and a set of self-assessment tools for CEOs and managers of established firms to help them refocus away from crisis management and toward more effective, planned, profitable growth in this age of global competition. Derived from open systems theory, empirical research, and practical experience, the Dynamic Systems Planning Model, the core of the book, aids strategists and scholars in identifying and analyzing a comprehensive set of core competencies of the organization to assure growth and profitability, providing a much broader perspective than the marketing and financial focus of strategy in the 1980s. The Dynamic Systems Planning Model is a tool to help the entrepreneur simplify the often chaotic changes that small and mid
