Financial Accounting And Business Law Dr. M. Shahid Ahmed, 2023-10-26 Law is essential to the establishment and maintenance of social order in our society. But we also need to recognise that there are other ways to establish order outside the legal system as it now exists. Order is not only based on the law; it also encompasses issues of a broader moral and political nature even in our society. An explanation of the form of order in general is not the focus of this work. More specifically, it focuses on outlining and clarifying the essential institutional components of the specific kind of order known as legal order. Business and commercial activity are ultimately controlled and regulated by law and they occur within a legal framework. A challenge that faces anyone studying business activity is that business enterprise occurs in a broad and general legal environment; however, the student must possess more than a cursory understanding of the legal procedures and regulations that affect business activity. This book specifically addresses this issue. This book's main goal is to provide students with a companion that is simple to teach while covering the necessary curriculum. Our aim has been to include the most recent curriculum updates for undergraduate, graduate, and postgraduate programmes offered by different centres and state universities. The Contract Act, the Sale of Goods Act, and the Negotiable Instrument Act are among the many acts that are addressed in this book.

The evaluation of financial risk profile of the companies and the mandatory disclosure on Liquidity and Credit Risk Olga Cucaro, 2020-10-18 THE EVALUATION OF FINANCIAL RISK PROFILE OF THE COMPANIES AND THE MANDATORY DISCLOSURE ON LIQUIDITY AND CREDIT RISK is a work born from a careful study of the evolution of the Italian and European legislation on the subject of financial risk communication and in particular of IFRS 7 Financial Instruments Disclosure. Thanks to this international accounting standard, Italian listed companies have included a

greater number of disclosures on financial risks in their financial statements but while there is no doubt the quantitative increase in information the qualitative value of this communication is doubtful In this regard the study analyzes the usefulness of the disclosure introduced by IFRS 7 for financial analysts The choice of analysts is a natural choice due to the importance they hold as intermediaries in the communication channel between companies and the market
