European Drug Policies Renaud Colson,Henri Bergeron,2017-01-27 The drug control regime established by the international community has not succeeded in curbing either the demand for or the offer of narcotics But despite a series of developments in the Americas including the legalisation of cannabis in Uruguay and in several states in the United States of America there is still little support in Europe for repealing drug prohibition laws Nevertheless a gradual policy convergence reveals the emergence of a European model favouring public health strategies over a strictly penal approach to combatting drugs while growing transnational support for legalisation indicates the persistence of an alternative paradigm for drug policy This book examines the various influences on drug policies in Europe as grassroots movements NGO networks private foundations and academic research centres increasingly confront the prevailing discourses of drug prohibition Pursuing an interdisciplinary approach and bringing together legal scholars social scientists and practitioners it provides a comprehensive and critical assessment of drug policy reform in Europe
