**Measurement Techniques Related to Criteria
for Cathodic Protection on Underground
or Submerged Metallic Piping Systems**

This NACE Standard is being made available to you at no charge because it is incorporated by reference in the New York State Department of Environmental Conservation Part 613 of Title 6 of the Official Compilation of Codes, Rules and Regulations of the State of New York (NYCRR).

For a list of NACE standards pertaining to pipeline integrity issues, please visit www.nace.org/Pipelines-Tanks-Underground-Systems/. NACE members are entitled to unlimited downloads of NACE standards, reports and conference papers for free as part of their member benefits.

NACE International is the world authority in corrosion prevention and control and is dedicated to protecting people, assets, and the environment from the effects of corrosion. NACE provides multiple industries with the resources to recognize, qualify, and quantify corrosion in a variety of application-oriented and industry-specific subjects through technical training and certification, conferences, standards, reports, and publications. Established in 1943, today NACE has more than 34,000 members in over 130 countries.
