companies therefore report effects on their business figures or announce conditions that threaten their existence Nevertheless there is hope There are companies that use this situation as an opportunity and through improved positioning will even come out of this crisis situation better than they came in However since market opportunities must be identified in order to be able to exploit them successfully indicators are needed that highlight these opportunities and in this context also express how the respective opportunity can be exploited However risks should also be revealed and the company's personal strengths and weaknesses taken into account After all only those who have a sophisticated strategy can face market events with confidence and achieve success in the long term The SWOT analysis can be described as such an indicator and is therefore the subject of this work
