## **The Objectives Of Sharia And Contemporary Challenges:**

*The Objectives of Islamic Law* Rumees Ahmed, Idris Nassery, Muna Tatari, 2020-07-06 Scholars, thinkers and activists around the world are paying increasing attention to a legal reform method that promises to revolutionize the way people think about Islamic law. Known as The Objectives of the Sharia, the theory offers a way to derive and apply new Islamic laws using an ancient methodology. The theory identifies core objectives that underlie Islamic law and then looks at inherited Islamic laws to see whether they meet those objectives. According to the Maqasid theory, historical Islamic laws that meet their objectives should be retained and those that do not, no matter how entrenched in practice or embedded in texts, should be discarded or reformed. Recently, several scholars have questioned the Maqasid theory, arguing that it is designed not to reform laws but to support existing power structures. They warn that adopting the Maqasid wholesale would set the reform project back, ensuring that inherited Islamic laws are never fully reformed to agree with contemporary values like gender egalitarianism and universal human rights.

**The Objectives of Islamic Law: The Promises and Challenges of the Maqasid al-Shari'a** captures the ongoing debate between proponents and skeptics of the Maqasid theory. It raises some of the most important issues in Islamic legal debates today and lays out visions for the future of Islamic law.

**Corporate Social Responsibility in Developing and Emerging Markets** Onyeka Osuji, Franklin N. Ngwu, Dima Jamali, 2020. A valuable interdisciplinary resource examining the concept and effectiveness of CSR as a tool for sustainable development in emerging markets.

**Contemporary Issues in Islam** Asma Afsaruddin, 2015-08-31. This book deals with certain hot button contemporary issues in Islam that are often the focus of public scrutiny, including the Sharia, jihad, the caliphate, women's status, and interfaith relations. Notably, it places the discussion of these topics within a longer historical framework in order to reveal their multiple interpretations and contested applications over time. Most public and some academic discourses, however, present the Islamic tradition as unchanging and therefore unable to respond to the modern world. Such an ahistorical approach fosters the belief that Muslim and Western societies are destined to clash with one another. In contrast, this book allows the reader to see the diversity and transformations within Islamic thought over time. Focusing on this internal diversity permits us to appreciate the scriptural and intellectual resources available within the Islamic tradition for responding to the challenges of modernity, even as it interrogates and shapes modernity itself.

**Advancing the Legal Status of Women in Islamic Law** Mona Samadi, 2021-05-25. Mona Samadi examines the sources of gender differences within the Islamic legal tradition and describes how Islamic law entitles individuals to justice according to their status, abilities, and potential. In the case of men and women's capabilities, the underlying principle is that they are entitled to the same rights as long as their capabilities are the same. In the legal construction of women's status, women have been prescribed, lacking the same abilities and capabilities as men. As such, their status and rights differ, justifying men to be the maintainers of women. By presenting the historical development of women's status and how women's legal status is debated in contemporary Muslim

societies Mona Samadi convincingly provides various methods for facilitating change within the Islamic legal theory framework
