The Photographer Emmanuel Guibert:

The DPhotographer Emmanuel Guibert, Didier Lefèvre, Frédéric Lemerrier, 2009-05-12 In 1986 Afghanistan was torn apart by a war with the Soviet Union This graphic novel photo journal is a record of one reporter's arduous and dangerous journey through Afghanistan accompanying the Doctors Without Borders Didier Lefèvre's photography paired with the art of Emmanuel Guibert tells the powerful story of a mission undertaken by men and women dedicated to mending the wounds of war Emmanuel Guibert's most recent book for First Second was the critically acclaimed Alan's War the memoir of a WWII GI His close friendship with Didier Lefèvre inspired him to combine art and photography to create this momentous book *The Art of the Graphic Memoir* Tom Hart, 2018-11-06 1 New York Times bestselling author and Eisner nominated cartoonist Tom Hart has written a poignant and instructive guide for all aspiring graphic memoirists detailing the tenets of artistry and story telling inherent in the medium Hart examines what makes a graphic memoir great and shows you how to do it With two dozen professional examples and a deep dive into his own story Hart encourages readers to hone their signature style in the best way to represent their journeys on the page With clear examples and visual aids *The Art of the Graphic Memoir* is emotive creative and accessible Whether you're a comics fan comic book creator memoirist biographer or autobiographer there's something inside for everyone Cultural Excavation and Formal Expression in the Graphic Novel Jonathan C. Evans, Thomas Giddens, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2013 The graphic novel is an artefact of visual images and written words a complex and expressive form tackling a multitude of issues and themes across the globe The graphic novel is a tool of self expression and personal identity of cultural understanding and philosophical exploration of history and hope Comics and graphic novels traverse themes such as heroism identity philosophy gender history and colonialism and these are just some of the topics encountered on the pages of this diverse collection of perspectives and analyses Incorporating chapters from authors all over the world this volume examines and expounds the rich tapestry of meanings expressions and cultural insights found in the medium of graphic fiction From concerns with comics definition and history to examinations of both seminal and neglected works as well as the medium's future *Cultural Excavation and Formal Expression in the Graphic Novel* demonstrates the deeply ingrained relevance of comics to contemporary culture **Drawing on the Past** Birte Wege, 2019-06-19 Lange wurden Comics als triviale Unterhaltung verpönt Erst in den letzten Jahrzehnten hat sich das geändert Immer häufiger sind sie zum Medium der Wahl für Künstlerinnen und Künstler geworden die kritisieren wollen wie die etablierten Medien mit politischen Fragen umgehen Dieses Buch untersucht das Potenzial von dokumentarischen Comics im Kontext einer sich schnell verändernden und immer weiter entwickelnden visuellen Kultur Im Mittelpunkt steht dabei gerade auch die Darstellung historischer Ereignisse und die Auseinandersetzung mit Fotografie **Human Rights Discourse in a Global Network** Lena Khor, 2013 Rather than viewing human rights as an immutable and ill defined entity Khor argues for the recognition of human rights as a social construct comprised of

language and language use Her case studies of Doctors Without Borders Paul Rusesabagina and Hotel Rwanda and Michael Ondaatje's *Anil's Ghost* support a new theoretical framework based on a global discourse network of human rights that enables textual and human actors to increase their power as speaking subjects

The Narratology of Comic Art Kai Mikkonen, 2017-05-08 By placing comics in a lively dialogue with contemporary narrative theory *The Narratology of Comic Art* builds a systematic theory of narrative comics going beyond the typical focus on the Anglophone tradition This involves not just the exploration of those properties in comics that can be meaningfully investigated with existing narrative theory but an interpretive study of the potential in narratological concepts and analytical procedures that has hitherto been overlooked This research monograph is then not an application of narratology in the medium and art of comics but a revision of narratological concepts and approaches through the study of narrative comics Thus while narratology is brought to bear on comics equally comics are brought to bear on narratology

How the World Was Emmanuel Guibert, 2014-07-15 In 1994 French cartoonist Emmanuel Guibert befriended an American veteran named Alan Cope and began creating his new friend's graphic biography Alan's War was the surprising and moving result the story of Cope's experiences as an American GI in France during World War II *How the World Was* is Emmanuel Guibert's moving return to documenting the life of his friend Cope died several years ago as Guibert was just beginning work on this book but Guibert has kept working to commit his friend's story to paper Cope grew up in California during the great depression and this remarkable graphic novel details the little moments that make a young man's life while capturing the scope of America during the great depression A lyrical touching portrait *How the World Was* is a gift for a dear friend in the last moments of his life and also a meditation on the birth of modern America

International Journal of Comic Art, 2009 **Alan's War** Emmanuel Guibert, 2008-10-28 When I was eighteen Uncle Sam told me he'd like me to put on a uniform and go off to fight a guy by the name of Adolf So I did When Alan Cope joined the army and went off to fight in World War II he had no idea what he was getting into This graphic memoir is the story of his life during wartime a story told with poignant intimacy and matchless artistry Across a generation a deep friendship blossomed between Alan Cope and author artist Emmanuel Guibert From it Alan's War was born a graphic novel that is a deeply personal and moving experience straight from the heart of the Greatest Generation a unique piece of WWII literature and a ground breaking graphic memoir
