themselves to the Egyptian pyramids since ancient Greece and Rome While many Americans believe that the pyramids were built by aliens archaeologists understand that the Giza pyramids were built by the pharaohs of the Fourth Dynasty around 2450 BCE So why is there such a disconnect between scholarly opinion and the popular view of Egypt In *The Legends of the Pyramids* Jason Colavito takes us back to Late Antique Egypt where the replacement of polytheism with Christianity gave rise to local efforts to rewrite the stories of Egyptian history in the image of the Bible When the Arab conquest absorbed Egypt into the Islamic community these stories then passed into Islamic historiography and reentered the West Colavito's *The Legends of the Pyramids* lays open pop culture's view of Egypt in movies TV shows popular books and New Age beliefs detailing how the hidden history of Egypt has grown alongside the official history of archaeology and Egyptology

[The Last Lingua Franca](#) Nicholas Ostler, 2010-12-01 English is the world's lingua franca the most widely spoken language in human history And yet as historian and linguist Nicholas Ostler persuasively argues English will not only be displaced as the world's language in the not distant future it will be the last lingua franca not replaced by another Empire commerce and religion have been the primary reasons d'etre for lingua francas Greek Latin Arabic have all held the position and Ostler explores each through the lens of civilizations spanning the globe and history from China and India to Russia and Europe Three trends emerge that suggest the ultimate decline of English and other lingua francas Movements throughout the world towards equality in society will downgrade the status of elites and since elites are the prime users of non native English the language will gradually retreat to its native speaking territories The rising wealth of Brazil Russia India and China will challenge the dominance of native English speaking nations thereby shrinking the international preference for English Simultaneously new technologies will allow instant translation among major languages enhancing the status of mother tongues and lessening the necessity for any future lingua franca Ostler predicts a soft landing for English It will still be widely spoken if no longer worldwide sustained by America's continued power on the world stage But its decline will be both symbolic and significant evidence of grand shifts in the cultural effects of empire *The Last Lingua Franca* is both an insightful examination of the trajectory of our own mother tongue and a fascinating lens through which to view the sweep of history
