*Blood Lust* Scott Sedjo,2013-03-20 The story of an experiment in genetic engineering which quickly evolves a life of its own A fast paced story which blurs the line between science and folklore as the unforeseen variables of life assert their own will to survive and refuse to be controlled Written in the first person from the unique perspective of the main characters as such it is narrated differently from different perspectives One perspective begins to gain control as the other loses control This dynamic creates an almost biblical twist on the standard relation of creator to created as the struggle for control intertwines in the lives of the characters
