*Arts & Humanities Citation Index*, 1997      **The Vietnam War** James Edward Westheider, 2007-09-30 The Vietnam War was different from most previous U S wars of the twentieth century It was an undeclared and limited war The draft to supply the soldiers and serious problems in the Selective Service system meant that the burden of the war was carried disproportionately by minorities and working class whites many of whom did not want to serve While many Americans saw service in Vietnam as their patriotic duty others opposed the war This is the story of the men and women who served in that war whether overseas in active combat or in support roles in Viet Nam and stateside      The First Team, 1969      **Charlie's House** Herb Moore, 2020-11-30 When it comes to making Marines no one does it better than the basic training drill instructors at Parris Island South Carolina and San Diego California But when it came down to making men Vietnam ranked at the top of the list An 18 year old teenager who found himself in combat became a man before he could buy a squirrel rifle or a beer back home Here is the story of some of those young men Dawson and Rooker as well as Swan Taggart Sweet Georgia Gunny Huggins Rabi and Putt Putt who met the world as Marines and became men as they faced horrendous ambushes unbearable heat furious mosquitoes and fierce combat The all but fanatical North Vietnamese soldiers and the Viet Cong saw all Americans especially the Marines as an enemy who should be killed at every opportunity Firefights blew up in unexpected places at any moment during the undeclared war As the young Marines grew quickly into manhood they began to wonder if their best Marine Corps training would be good enough for them to survive Even in all the madness of war there were times of light humor among friends and comrades but always there was the threat that any minute a deathblow could erupt with no warning Doubts and dreams were shared among the young Marines Fear became a constant partner and stress was always a faithful companion They learned to live with a deep in the stomach churning as they fully recognized that each minute could be their last When a Marine Recon faced the feared enemy Dawson and Rooker found themselves in the midst of trying to formulate and carry out a dangerous plan What really happened may surprise you it did them      **1968** Joe Haldeman, 2014-12-02 So many tensions and so much emotion A powerful novel of the Vietnam era by the award winning author of *The Forever War* Booklist John Spider Spiedel is a college dropout who is drafted into the war as a combat engineer Scared he tries to keep his head down and stay safe a plan that works until the Tet Offensive when he is wounded and sent stateside and receives a devastating diagnosis And while he s been away fighting his girlfriend Beverly has fallen in with the hippie movement in an attempt to rebel against the repressive values of American society and the injustice of the war that took her boyfriend overseas Vietnam was the conflict that changed America s relationship with war forever and this novel by Nebula and Hugo Award winning author Joe Haldeman inspired by his own experience in the military is a look at this turbulent time in US history as seen through the eyes of the people most affected the soldiers and their loved ones 1968 is not just a story of two young people attempting to find themselves in a tumultuous world it s the account of a country trying

to find itself as well This ebook features an illustrated biography of Joe Haldeman including rare images from the author s personal collection

A Common Virtue James A Hawkins,2014-11-15 Becoming a man is difficult even in the best of circumstances but when it must be done in 1968 with the Year of the Monkey set to explode onto the cities and battlefields of a war torn Vietnam it is only the very best who make the grade A Common Virtue has the immediacy and punch of today s fears as it draws on yesterday s headlines When the armies of Ho Chi Mihn push across the demilitarized zone on a scale never thought possible and simultaneously strike at hundreds of targets American Marines are at the forefront dependent on information from a special reconnaissance force that is the only thing that can stop Hanoi from using a New Year s opportunity to seize the country Unfolding against this background is the story of Marine Paul Jackson the sole survivor of a hillside massacre A sniper and reconnaissance innovator his epic march through the annals of the horrific bureaucracy that is the U S military in 1968 is the heart of this story As an eighteen year old Marine he learns at an early age what he must do to survive what he must do to excel and what he must do to fit into the most exclusive military fraternity in the world A Common Virtue is about the other half of heroism the part that pits a warrior against an American public that despises his uniform against internal factions that brand him a coward and against a beautiful woman who wants nothing more than for him to stay home and love her It is about growing into manhood in a toxic America and a world gone mad Tough choices painful experiences and an instinct for survival work to create a leader of legend Exciting historical and far reaching A Common Virtue is an ambitious and explosive creation one that could only have been written by one who was there

*Bio-inspired Algorithms in Machine Learning and Deep Learning for Disease Detection* Balasubramaniam S,Seifedine Kadry,Manoj Kumar TK,K. Satheesh Kumar,2025-03-13 Currently computational intelligence approaches are utilised in various science and engineering applications to analyse information make decisions and achieve optimisation goals Over the past few decades various techniques and algorithms have been created in disciplines such as genetic algorithms artificial neural networks evolutionary algorithms and fuzzy algorithms In the coming years intelligent optimisation algorithms are anticipated to become more efficient in addressing various issues in engineering scientific medical space and artificial satellite fields particularly in early disease diagnosis A metaheuristic in computer science is designed to discover optimisation algorithms capable of solving intricate issues Metaheuristics are optimisation algorithms that mimic biological behaviours of animals or birds and are utilised to discover the best solution for a certain problem A meta heuristic is an advanced approach used by heuristics to tackle intricate optimisation problems A metaheuristic in mathematical programming is a method that seeks a solution to an optimisation problem Metaheuristics utilise a heuristic function to assist in the search process Heuristic search can be categorised as blind search or informed search Meta heuristic optimisation algorithms are gaining popularity in various applications due to their simplicity independence from data trends ability to find optimal solutions and versatility across different fields Recently many nature inspired computation algorithms have been utilised to diagnose people with

different diseases Nature inspired methodologies are now widely utilised across several fields for tasks such as data analysis decision making and optimisation Techniques inspired by nature are categorised as either biology based or natural phenomena based Bioinspired computing encompasses various topics in computer science mathematics and biology in recent years Bio inspired computer optimisation algorithms are a developing method that utilises concepts and inspiration from biological development to create new and resilient competitive strategies Bio inspired optimisation algorithms have gained recognition in machine learning and deep learning for solving complicated issues in science and engineering Utilising BIA learning methods with machine learning and deep learning shows great promise for accurately classifying medical conditions This book explores the historical development of bio inspired algorithms and their application in machine learning and deep learning models for disease diagnosis including COVID 19 heart diseases cancer diabetes and some other diseases It discusses the advantages of using bio inspired algorithms in disease diagnosis and concludes with research directions and future prospects in this field *Catalog of Copyright Entries.
