**Kardashians** Meredith Jones, Kath Burton, Donna Lee Brien, 2024-07-24. This interdisciplinary volume introduces the field of Kardashian Studies through collections of essays based in sociology, media studies, cultural studies, critical race theory, and fashion theory. The Kardashian empire and dynasty is intertwined with some of the most important movements of the early twenty-first century: Celebrity, cultural appropriation, new forms of feminism, social media, ideal bodies, evolving notions of physical beauty, and the global fashion system. All have been affected by the quintessential influencers in this family of matriarchs. The anthology is structured around core thematic parts: *From Storytelling and Race through Fashion and Celebrity to Time and Embodiment*. Each part contains an accessible introduction followed by chapters that together take a unique approach to exploring the Kardashians from multiple viewpoints. The inclusion of discussion points suitable for classroom use enhances the utility of the anthology for both study and teaching purposes. The first of its kind, *Kardashians: A Critical Anthology* positions Kardashian Studies at the forefront of critical inquiry around notions of authenticity, contemporary feminisms, visuality, and social media. It will be of interest to both scholars and students interested in popular culture, television, notions of authenticity, contemporary feminisms, visuality, race, and social media.

**Self-Representation in an Expanded Field** Ace Lehner, 2021-05-31. Defined as a self-image made with a hand-held mobile device and shared via social media platforms, the selfie has facilitated self-imaging becoming a ubiquitous part of globally networked contemporary life. Beyond this, selfies have facilitated a diversity of image-making practices and enabled otherwise representationally marginalized constituencies to insert self-representations into visual culture. In the Western, European, and North American art-historical context, self-portraiture has been somewhat rigidly, albeit obliquely, defined, and selfies have facilitated a shift regarding who literally holds the power to self-image. Like self-portraits, not all selfies are inherently aesthetically or conceptually rigorous or avant-garde. But as this project aims to do, address via a variety of

interdisciplinary approaches selfies have irreversibly impacted visual culture contemporary art and portraiture in particular Selfies propose new modes of self imaging forward emerging aesthetics and challenge established methods they prove that as scholars and image makers it is necessary to adapt and innovate in order to contend with the most current form of self representation to date The essays gathered herein will reveal that in our current moment it is necessary and advantageous to consider the merits and interventions of selfies and self portraiture in an expanded field of self representations We invite authors to take interdisciplinary global perspectives to investigate various sub genres aesthetic practices and lineages in which selfies intervene to enrich the discourse on self representation in the expanded field today **The Routledge**
