Organizational Survival in the New World Alex Bennet, David

Bennet, 2004-02-18 In this book David and Alex Bennet propose a new model for organizations that enables them to react more quickly and fluidly to today's fast changing dynamic business environment the Intelligent Complex Adaptive System ICAS ICAS is a new organic model of the firm based on recent research in complexity and neuroscience and incorporating networking theory and knowledge management and turns the living system metaphor into a reality for organizations This

book synthesizes new thinking about organizational structure from the fields listed above into ICAS a new systems model for the successful organization of the future designed to help leaders and managers of knowledge organizations succeed in a non linear complex fast changing and turbulent environment Technology enables connectivity and the ICAS model takes advantage of that connectivity by fostering the development of dynamic effective and trusting relationships in a new organizational structure This book outlines the model in chapter four and then breaks down the model into its components in the next two chapters This is a benefit to readers since different components of the model can be implemented at different times so the book can guide implementation of one or all of the components as a manager sees fit There are eight characteristics of the ICAS organizational intelligence unity and shared purpose optimum complexity selectivity knowledge centricity flow permeable boundaries and multi dimensionality
