research engaging in cyber activism and doing critical media literacy education Lastly he returns to theory first considering two areas of critical literacy pedagogy that are still relatively unexplored the importance of critical reading and writing in constituting and reconstituting the self and critical writing that is not just about coming to a critical understanding of the world but that plays an explicit and self referential role in changing the world Morrell concludes by outlining a grounded theory of critical literacy pedagogy and considering its implications for literacy research teacher education classroom practice and advocacy work for social change
