Hong Kong Crime Films Kristof Van den Troost, 2023-09-04 Hong Kong Crime Films is the first book detailing the post war history of the genre before the release of John Woo's *A Better Tomorrow* 1986 the film that put Hong Kong action crime on the global map Focusing on what it calls the mode of criminal realism in the crime film the book shows how depictions of Hong Kong's social reality including crime were for decades anxiously policed by colonial censors and how crime films tended and still tend to confound and transgress critical definitions of realism Drawing on extensive archival research Hong Kong Crime Films covers several neglected topics in the study of Hong Kong cinema such as the evolving generic landscape of the crime film prior to the 1980s the influence of colonial film censorship on the genre and the prominence and contestation of realism in the local history of the crime film

[Expanding the Black Film Canon](#) Lisa Doris Alexander, 2019-08-30 If the sheer diversity of recent hits from *Twelve Years a Slave* and *Moonlight* to *Get Out* *Black Panther* and *BlackkKlansman* tells us anything it might be that there's no such thing as black film per se This book is especially timely then in expanding our idea of what black films are and going back to the 1960s showing us new and interesting ways to understand them When critics and scholars write about films from the Blaxploitation movement such as *Cotton Comes to Harlem* *Shaft* *Superfly* and *Cleopatra Jones* they emphasize their importance as films made for black audiences Consequently Lisa Doris Alexander points out a film like the highly popular Oscar nominated *Blazing Saddles* costarring and co written by Richard Pryor is generally left out of the discussion because it doesn't fit the profile of what a black film of the period should be This is the kind of categorical thinking that Alexander seeks to broaden looking at films from the 60s to the present day in the context of their time Applying insights from black feminist thought and critical race theory to one film per decade she analyzes what each can tell us about the status of black people and race relations in the United States at the time of its release By teasing out the importance of certain films excluded from the black film canon Alexander hopes to expand that canon to include films typically relegated to the category of popular entertainment and to show how these offer more nuanced representations of black characters even as they confront negate or parody the controlling images that have defined black filmic characters for decades
