

CPCS renewal test factsheet

Introduction to the CPCS renewal test

The Industrial CPCS Management Committee has determined that key safety-related knowledge must be checked on each category prior to the renewal of a CPCS Competent Operator (Crane) card. The CPCS renewal test is the means by which this knowledge will be tested on topics that reflect risks (issues identified through consultation) that occur regularly on site.

For each topic identified there is a list of questions, from which a number will be included in the test and for which supporting information is provided in this factsheet. Each test will ask a total of 15 questions selected randomly to ensure all topics are covered.

This test will cover all categories within the scheme through modules. Some modules have been identified to cover a range of similar CPCS categories.

The CPCS renewal test is available on the CITE-ConstructionSkills Training Services platform alongside the Health, safety and environment test.

The questions and answers will not be published but factsheets are available for each module to cover the topics.

How to use this factsheet

From its taking the test, candidates are advised to carefully study the factsheet which will provide them in deciding the correct answer or answers to each given question. Correct answers are based on legislation or good practice adopted in the majority of cases, by the construction and other sectors.

It is acknowledged that variations may occur depending on the nature of the operation or on how the machine is used. However the correct answer to each question is based on common practices or manufacturer's requirements for the majority of machine types within each module, and applies to the test irrespective of how a machine may be used within a particular activity or sector. It is important, therefore, that this factsheet is studied carefully.

The questions are selected randomly and will not appear in the order that topics appear in this factsheet.

If the card holder does not answer all the questions correctly, the score report issued after completing the test will indicate the topic areas in which the questions were answered incorrectly. The candidate should, prior to re-taking the test, re-study all topic areas.

Scoring the test

To be successful in this module, candidates need to correctly answer a minimum of 12 out of the 15 questions presented. However, because many of the questions are safety-related in the majority of cases, a minimum number of questions per topic need to be answered correctly. Failure to do so, even if the overall minimum number of correct answers has been reached, may mean that the candidate is unsuccessful on the test.

The top of each topic states the number of questions that will be presented for each topic and the minimum number of questions that must be answered correctly in order to pass the test.

Cpcs Renewal Test Factsheet Cpcs Module Matcher Bing

Julia Schneider

Cpcs Renewal Test Factsheet Cpcs Module Matcher Bing:

If you ally habit such a referred **Cpcs Renewal Test Factsheet Cpcs Module Matcher Bing** ebook that will have the funds for you worth, acquire the totally best seller from us currently from several preferred authors. If you desire to entertaining books, lots of novels, tale, jokes, and more fictions collections are after that launched, from best seller to one of the most current released.
