Powers,2011-05-30 This is the second edition of David Powers highly respected PHP Solutions Dynamic Web Design Made  
Easy This new edition has been updated by David to incorporate changes to PHP since the first edition and to offer the latest  
techniques a classic guide modernized for 21st century PHP techniques innovations and best practices You want to make  
your websites more dynamic by adding a feedback form creating a private area where members can upload images that are  
automatically resized or perhaps storing all your content in a database The problem is you re not a programmer and the  
thought of writing code sends a chill up your spine Or maybe you ve dabbled a bit in PHP and MySQL but you can t get past  
baby steps If this describes you then you ve just found the right book PHP and the MySQL database are deservedly the most  
popular combination for creating dynamic websites They re free easy to use and provided by many web hosting companies in  
their standard packages Unfortunately most PHP books either expect you to be an expert already or force you to go through  
endless exercises of little practical value In contrast this book gives you real value right away through a series of practical  
examples that you can incorporate directly into your sites optimizing performance and adding functionality such as file  
uploading email feedback forms image galleries content management systems and much more Each solution is created with  
not only functionality in mind but also visual design But this book doesn t just provide a collection of ready made scripts each  
PHP Solution builds on what s gone before teaching you the basics of PHP and database design quickly and painlessly By the  
end of the book you ll have the confidence to start writing your own scripts or if you prefer to leave that task to others to  
adapt existing scripts to your own requirements Right from the start you re shown how easy it is to protect your sites by  
adopting secure coding practices *Dreamweaver 4* Jennifer Ackerman Kettell,2001 This text offers a comprehensive  
tutorial reference to using Dreamweaver and Fireworks to build dynamic websites It also includes design theory and HTML  
information The book follows the development of a site chapter by chapter showing developers how each feature builds upon  
previous material Adobe Dreamweaver CS5 with PHP David Powers,2010-08-10 This Adobe approved project based guide  
from one of the world s most popular web design authors David Powers will teach readers how to progress from designing

static websites to building dynamic websites in Adobe Dreamweaver CS5 Using step by step instructions with projects that build on the knowledge acquired in each lesson readers will learn about the new PHP features in Dreamweaver CS5 including the ability to work in Live View with WordPress as well as extended support for PHP code hints syntax checking and dynamically related files Readers will learn how to upload images and send email with attachments using the Zend Framework In contrast to existing books on the Zend Framework this book will show web designers and developers with little or no programming experience how to use selected modules to integrate dynamic features into existing sites There is a strong emphasis on following security best practices Readers will also learn progressive enhancement techniques for updating pages seamlessly with PHP and Ajax All of Peachpit s eBooks contain the same content as the print edition You will find a link in the last few pages of your eBook that directs you to the media files Helpful tips If you are able to search the book search for Where are the lesson files Go to the very last page of the book and scroll backwards You will need a web enabled device or computer in order to access the media files that accompany this ebook Entering the URL supplied into a computer with web access will allow you to get to the files Depending on your device it is possible that your display settings will cut off part of the URL To make sure this is not the case try reducing your font size and turning your device to a landscape view This should cause the full URL to appear
