The Experience Machine Gloria Sutton,2015-02-20 An argument that the collaborative multimedia projects produced by Stan VanDerBeek in the 1960s and 1970s anticipate contemporary new media and participatory art practices In 1965 the experimental filmmaker Stan VanDerBeek 1927 1984 unveiled his Movie Drome made from the repurposed top of a grain silo VanDerBeek envisioned Movie Drome as the prototype for a communications system a global network of Movie Dromes linked to orbiting satellites that would store and transmit images With networked two way communication Movie Dromes were meant to ameliorate technology s alienating impulse In The Experience Machine Gloria Sutton views VanDerBeek known mostly for his experimental animated films as a visual artist committed to the radical aesthetic sensibilities he developed during his studies at Black Mountain College She argues that VanDerBeek s collaborative multimedia projects of the 1960s and 1970s sometimes characterized as Expanded Cinema with their emphases on transparency of process and audience engagement anticipate contemporary art s new media installation and participatory practices VanDerBeek saw Movie Drome not as pure cinema but as a communication tool an experience machine In her close reading of the work Sutton argues that Movie Drome can be understood as a programmable interface She describes the immersive experience of Movie Drome which emphasized multi sensory experience over the visual display strategies deployed in the work the Poemfield computer generated short films and VanDerBeek s interest unique for the time in telecommunications and computer processing as a future model for art production Sutton argues that visual art as a direct form of communication is a feedback mechanism which turns on a set of relations not a technology

Chicago Makes Modern Mary Jane Jacob,Jacquelynn Baas,2012-12-15 Chicago is a city dedicated to the modern from the skyscrapers that punctuate its skyline to the spirited style that inflects many of its dwellings and institutions from the New Bauhaus to Hull House Despite this the city has long been overlooked as a locus for modernism in the arts its rich tradition of architecture design and education disregarded Still the modern in Chicago continues to thrive as new generations of artists incorporate its legacy into fresh visions for the future Chicago Makes Modern boldly remaps twentieth century modernism from our new century perspective by asking an imperative question How did the modern mind deeply

reflective yet simultaneously directed help to dramatically alter our perspectives on the world and make it new Returning the city to its rightful position at the heart of a multidimensional movement that changed the face of the twentieth century Chicago Makes Modern applies the missions of a brilliant group of innovators to our own time From the radical social and artistic perspectives implemented by Jane Addams John Dewey and Buckminster Fuller to the avant garde designs of L szl Moholy Nagy and Mies van der Rohe the prodigious offerings of Chicago s modern minds left an indelible legacy for future generations Staging the city as a laboratory for some of our most heralded cultural experiments Chicago Makes Modern reimagines the modern as a space of self realization and social progress where individual visions triggered profound change Featuring contributions from an acclaimed roster of contemporary artists critics and scholars this book demonstrates how and why the Windy City continues to drive the modern world **The Essential Whole Earth Catalog** ,1986 Taking its place beside the instant classic bestseller The Whole Earth Catalog this new practical comprehensive and profusely illustrated guide will prove invaluable to all consumers looking for a quick efficient route to the very best information Over 1 000 black and white illustrations Critical Pathways in Therapeutic Intervention David C.
