interests and academic achievement ACT's Educational Planning and Assessment System (EPAS) provides academic achievement, career interest, and educational planning information to eighth, tenth, and eleventh-twelfth grade students and their parents. ACT's Interest Inventory is a component of its three EPAS programs: EXPLORE, PLAN, and the ACT, and is administered to students at each of these grade levels. Because such a large number of schools participate in EPAS, ACT is able to study the academic and career interest development of students from middle school through high school. The sample for this study was based on 69,987 ACT-tested students who had participated in EPAS between 1997 and 2001. By following these students over time from eighth grade to high school graduation, several important questions were answered about students' academic achievement and career development. The answers to these questions enable counselors, teachers, and parents to assist students during important academic and career transitions.
