

## Case Problem 2

### Metropolitan Research, Inc.

Metropolitan Research, Inc., a consumer research organization, conducts surveys designed to measure public opinion on product characteristics and advertising. In one recent survey, Metropolitan asked its consumers whether they are purchasers of certain items produced by or under the brand name of Metropolitan. It determined that in terms of use of the name, Metropolitan was treated as a special case. About half the respondents indicated that they purchase items that bear Metropolitan's name. Metropolitan used a sample of equal numbers of respondents who purchased items produced by Metropolitan and those who did not. The following data show the total number of respondents in each of the four categories:
