Gender Justice in Islamic Law Musa Usman Abubakar, 2018-06-14 This book seeks to interrogate the classical fiqh formulation on gender and homicide with a view to exploring further the debate on whether the so called gender injustice in Islamic law is a human creation or attributable to the divine sources of the Qur'an and Sunnah. The study is in response to the increasing criticism of the Islamic criminal law regime and the accusation that it discriminates on the basis of gender. It argues that any attempt to critique a religious question through the lens of traditional Western human rights ideals would be resisted by the vast majority of Muslims. An examination of the question and any suggested solutions offered would be much more effective if situated within the system they identify with that is to address the question of gender justice deficit from within the Islamic legal tradition. Focusing on Nigeria and Pakistan, the book achieves this by drawing on classical fiqh literature, contemporary literature, legislative sources, and relevant case law.

**Women and Gendered Violence in Canada** Chris Bruckert, Tuulia Law, 2018-01-01 Violence against women is usually framed as an issue of interpersonal violence perpetuated by men. While domestic violence and sexual assault are significant social problems, such a narrow framing obscures the diversity of women's experience, fails to illuminate the role social structures play, and excludes discussions of workplace and state violence. By drawing on a range of theoretical traditions emerging from feminism, criminology, and sociology, *Women and Gendered Violence in Canada* significantly expands the conversation on violence against women. The first section of the book develops the conceptual and contextual framework that informs the remainder of the text, and the following three sections are organized around types of victimization: interpersonal, labour, site, and state. Each chapter ends with lists of suggested activities, and first person narratives are integrated throughout to personalize the material and issues being examined.

*UN Convention Against Transnational Organized Crime* Andreas Schloenhardt, Francesco Calderoni, Joseph Lelliott, Bettina Weißer, 2023 This book is an article by article commentary on the UN Convention Against Transnational Organized Crime and its three Protocols on Trafficking in Persons and Smuggling of Migrants. It analyses the nature of transnational organized crime and examines how the Convention has been implemented since it came into force in 2003.

Extremism, Free Speech and Counter-Terrorism Law and Policy Ian Cram, 2019-03-27 This edited collection addresses a number of free speech vs security concerns that are engaged by counter terrorism law and policy makers across a number of liberal democracies and explores the delicate balance between free speech and the censoring of views that promote hatred or clash with fundamental democratic values. It does this by looking at the perspectives and level of disagreement between those who consider today's counter terrorism and extremism strategies to be a soft and liberal approach, and those who believe these strategies disproportionately impact freedom of expression and association and non-violent political dissent. The contributors include academics, practicing lawyers, and think tank analysts who examine whether universities and schools are incubators of violent radicalism and debate, and whether the views of

extremist speakers and hate preachers need to be censored Outside the UK critical discussion of the regulation of counter terrorism extremism and free speech in other liberal democracies is also offered This book will be of great interest to researchers and practitioners with interests in extremism terrorism civil rights and freedom of speech **Reframing Human Rights in a Turbulent Era** Gráinne de Búrca,2021-03-09 In recent years human rights have come under fire with the rise of political illiberalism and the coming to power of populist authoritarian leaders in many parts of the world who contest and dismiss the idea of human rights More surprisingly scholars and public intellectuals from both the progressive and the conservative side of the political spectrum have also been deeply critical dismissing human rights as flawed inadequate hegemonic or overreaching While acknowledging some of the shortcomings this book presents an experimentalist account of international human rights law and practice and argues that the human rights movement remains a powerful and appealing one with widespread traction in many parts of the globe Using three case studies to illuminate the importance and vibrancy of the movement around the world the book argues that its potency and legitimacy rest on three main pillars First it is based on a deeply rooted and widely appealing moral discourse that integrates the three universal values of human dignity human welfare and human freedom Second these values and their elaboration in international legal instruments have gained widespread even if thin agreement among states worldwide Third human rights law and practice is highly dynamic with human rights being activated shaped and given meaning and impact through the on going mobilization of affected individuals and groups and through their iterative engagement with multiple domestic and international institutions and processes The book offers an account of how the human rights movement has helped to promote human rights and positive social change and argues that the challenges of the current era provide good reasons to reform innovate and strengthen that movement rather than to abandon it or to herald its demise **The Human Rights Council** Damian Etone,2020-01-27 This book examines the engagement of African states with the United Nations Human Rights Council's Universal Periodic Review UPR mechanism This human rights mechanism is known for its pacific and non confrontational approach to monitoring state human rights implementation Coming at the end of the first three cycles of the UPR the work offers a detailed analysis of the effectiveness of African states engagement and its potential impact It develops a framework which comprehensively evaluates aspects of states UPR engagement such as the pre review national consultation process and implementation of UPR recommendations which until recently have received little attention The book considers the potential for acculturation in engagement with the UPR and unpacks the impact of politics regionalism cultural relativism rights ritualism and civil society The work provides a useful guide for policymakers and international human rights law practitioners as well as a valuable resource for international legal and international relations academics and researchers **Parliamentary Debates** Western Australia.
