Civic Education Textbook:

Civic Education in the Twenty-First Century Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters

Civic Education & Culture Bradley C. S. Watson, 2005 What do we teach our citizens This great Platonic question is as crucial today as it has ever been America and the West come to terms with this question in the context of their richly diverse technologically sophisticated fundamentally individualistic societies Virtually all would agree that such diversity sophistication and freedom are positive political and cultural goods but many would also argue that they militate against the coherence that all regimes and civilizations must in some way demand The nature extent and coherence of civic education are perhaps the greatest determinants of a regime s politics and culture and the regime can in turn do much to foster the right kind of civic education This book presents the insights of renowned scholars and writers including Stephen H Balch Timothy Fuller and Roger Kimball who have thought broadly and deeply about the role that education at all levels plays in promoting maintaining or undermining our politics culture and society

Teaching America David J.

Feith,2011-08-11 In Teaching America more than 20 leading thinkers sound the alarm over a crisis in citizenship and lay out a powerful agenda for reform The book s unprecedented roster of authors includes Justice Sandra Day O Connor Senator Jon Kyl Senator Bob Graham Secretary Rod Paige Alan Dershowitz Juan Williams Glenn Reynolds Michael Kazin Frederick Hess Andrew Rotherham Mike Feinberg Seth Andrew Mark Bauerlein and more Their message To remain America our country has to give its kids a civic identity an understanding of our constitutional system and some appreciation of the amazing achievements of American self government But we are failing Young Americans know little about the Bill of Rights the democratic process or the civil rights movement Three of every four high school seniors aren t proficient in civics nine of ten can t cut it in U S history and the problem is only aggravated by universities disregard for civic education Such civic illiteracy weakens our common culture disenfranchises would be voters and helps poison our politics **Civic Education** Richard G. Niemi,Jane Junn,2005-05-11 Sound democratic decisions rely on a citizenry with at least a partial mastery of the rules and workings of democratic government American high schools where students learn the basics of citizenship thus ought to play a critical role in the success of democracy Yet studies examining the impact of high school government and civics courses on political knowledge over the past quarter century have generally shown that these courses have little or no effect In this important book Richard G Niemi and Jane Junn take a fresh look at what America s high school seniors know about government and politics and how they learn it The authors argue convincingly that secondary school civics courses do indeed enhance students civic knowledge This book is based on the most extensive assessment to date of civic knowledge among American youth the 1988 National Assessment of Education Progress NAEP Civics Assessment The authors develop and test a theoretical model to explain the cognitive process by which students learn about politics and they conclude by suggesting specific changes in the style and emphasis of civics teaching **Civic Education in the Elementary Grades** Dana Mitra,Stephanie C. Serriere,2015-10-16 Based on a 5 year study of an elementary school with socioeconomic diversity the authors provide an active model of civic engagement organized into three settings Classroom School and Community Each chapter includes an overview of what research has demonstrated about civic engagement in that particular space offers detailed descriptions of activities and closes with lessons for practice This case study demonstrates how putting civics at the center of the curriculum gives purpose and motivation to traditional academic learning including tested subjects such as reading writing and mathematics As former elementary school teachers the authors focus on what is possible in schools rather than a romantic vision of what schools could be Classroom teachers school principals community members and teacher educators can use this resource to foster a deeper richer understanding of what is entailed in civic life **Essential Civic Education for Senior Secondary Schools (SS1, SS2 & SS3)** Gbenga M. Babalola,Igbinobu Chuks,2015 **The Civic Textbook** Aleksandar Saša Zeković,2005 **Learning the Ways of Democracy** ,2012-05-01 **Local Civics with National Purpose** J. Spencer Clark,2021-02-04 This book examines the development of civic education in the United States

through the lives of two teachers at Shortridge High School SHS in Indianapolis around 1900 After situating civic education at the turn of the century the book describes the career of Laura Donnan her influences teaching extracurriculars and civic life through the lens of her unique epistemology shaped by negotiating the gendered ideologies of her era Then the book re-examines Arthur W Dunn s career focusing on his ten years at SHS and the influence of Donnan on his popular community civics curriculum and subsequently the 1916 report *The Social Studies in Secondary Education* Previous scholars have overlooked Dunn s time at SHS viewing it simply as a stepping stone for the progressive educator s career This book argues that Dunn s time at SHS was pivotal to his career due to influential colleagues primarily Donnan To conclude Clark discusses the implications of Donnan s epistemology in shaping civic education in the United States MK Junior Secondary Civic Education Nsama Gershom Bwembya, Godfrey E. Making Civics Count David E. Campbell, Meira Levinson, Frederick M. Hess, 2012-10-01 By nearly every measure Americans are less engaged in their communities and political activity than generations past So write the editors of this volume who survey the current practices and history of citizenship education in the United States They argue that the current period of creative destruction when schools are closing and opening in response to reform mandates is an ideal time to take an in depth look at how successful strategies and programs promote civic education and good citizenship *Making Civics Count* offers research based insights into what diverse students and teachers know and do as civic actors and proposes a blueprint for civic education for a new generation that is both practical and visionary **Civic Education for Diverse Citizens in Global Times** Beth C. Rubin, James M. Giarelli, 2013-10-11 This book explores four interrelated themes rethinking civic education in light of the diversity of U S society re-examining these notions in an increasingly interconnected global context re-considering the ways that civic education is researched and practiced and taking stock of where we are currently through use of an historical understanding of civic education There is a gap between theory and practice in social studies education while social studies researchers call for teachers to nurture skills of analysis decision making and participatory citizenship students in social studies classrooms are often found participating in passive tasks e.g quiz and test taking worksheet completion listening to lectures rather than engaging critically with the curriculum *Civic Education for Diverse Citizens in Global Times* directed at students researchers and practitioners of social studies education seeks to engage this divide by offering a collection of work that puts practice at the center of research and theory **Teaching America** David Feith, 2011-08-11 In *Teaching America* more than 20 leading thinkers sound the alarm over a crisis in citizenship and lay out a powerful agenda for reform The book s unprecedented roster of authors includes Justice Sandra Day O Connor Senator Jon Kyl Senator Bob Graham Secretary Rod Paige Alan Dershowitz Juan Williams Glenn Reynolds Michael Kazin Frederick Hess Andrew Rotherham Mike Feinberg Seth Andrew Mark Bauerlein and more Their message To remain America our country has to give its kids a civic identity an understanding of our constitutional system and some appreciation

of the amazing achievements of American self government But we are failing Young Americans know little about the Bill of Rights the democratic process or the civil rights movement Three of every four high school seniors aren't proficient in civics nine of ten can't cut it in U S history and the problem is only aggravated by universities disregard for civic education Such civic illiteracy weakens our common culture disenfranchises would be voters and helps poison our politics *Diagrams in Civic Education* Janne Holmén, Ann-Sofie Jägerskog, Daniel Schumann, Malin Tväråna, 2024-08-28 This book presents the findings of three studies on the use of diagrams in civic education The first study presents an international comparison of textbook diagrams promoting national unity in diversity with examples from ten countries The second focuses on the depiction of migration in diagrammatic form in German textbooks The final study was conducted in collaboration with teachers in Swedish social science classrooms and focuses on teaching comprehension of flow charts and scatterplots The book will be of interest to scholars of educational media didactics the history of education and citizenship education MK Junior Secondary Civic Education Nsama Gershom Bwembya, Godfrey E. N. Nsubuga, 2012 *Building Better Citizens* Holly Korbey, 2019-10-21 Educating for citizenship was the original mission of American schools but for decades that knowledge also known as civics education has been in decline as schools have shifted focus to college and career STEM and raising reading and math scores But over the last few years spurred on by political polarization and a steep decline in public understanding civics education is seeing a nation wide resurgence as school leaders educators and parents recognize the urgency of teaching young people how America works especially young people who have been marginalized from the political system But this isn't your grandmother's civics The new civics has been updated and retooled for the phone addicted multi cultural globalized twenty first century kid From combatting fake news with fact checking in Silicon Valley to reviving elementary school social studies in Nashville to learning civic activism in Oklahoma City journalist Holly Korbey documents the grassroots revival happening across the country Along the way she provides an essential guidebook for educators school leaders and caregivers of all types who want to educate a new generation of engaged citizens at a critical time in American democracy The Future of Civic Education Elizabeth Yeager Washington, Keith C. Barton, 2024-10-01 Speaking to the need to move beyond traditional formulations this textbook presents radical visions for transforming civic education in the United States Drawing on the experience of educators and scholars including those rooted in feminist queer abolitionist global and race conscious perspectives this work offers new practical ideas for civic education reform Responding to recent political crises many scholars educators and public commentators have called for a rebirth of civic education but these all are grounded in the premise that the goal of civic education should be to teach students about the U S Constitutional system and how to operate within it This book argues that the U S governmental system including the Constitution is infused with racist and anti democratic premises and procedures It asks How can we seek a new path one that is more democratic more equitable and more humane A diverse range of leading civic educators who are willing not just to push the boundaries of

civic education but to operate outside its assumptions altogether explore what future possibilities for civic education might look like and how these innovative ideas could be implemented in the classroom Combining theory with practice The Future of Civic Education will be important reading for those studying or researching in social studies methods social studies issues citizenship and civic education It will also be beneficial to social studies teachers at elementary and secondary levels as well as policymakers and non governmental organizations NGOs

Civic Education in the Twenty-first Century Michael T. Rogers, Donald M.
