Social Work with Unmarried Mothers and Their Children Vivienne E. Cree, Robert MacKenzie, 2026-01-23 This is a social work history with a difference Written with and by a retired social worker and three former residents of a children s home in Edinburgh Scotland it tells the story of one agency s response to unmarried mothers and their children during and after the Second World War and alongside this the story of what was at the time a new and experimental approach to group care for children Based on the experience of the Guild of Service for Women then a prominent Scottish voluntary agency and Edzell Lodge and Margaret Cottage family group homes we learn from the inside what life was like for unmarried mothers and their children between the early 1940s and early 1960s The book draws on three very different sources of evidence social policy and legislation historical sources and social work literature memories of children now older adults and staff members and archival research agency records and genealogical sources Taken together these present a rich and nuanced picture of social work and childcare in the past offering much learning for social work and childcare in the future as well as a timely example of a co produced collaborative research and writing project

Advances on P2P, Parallel, Grid, Cloud and Internet Computing Leonard Barolli, 2024-11-16 This book aims to provide the latest

research findings innovative research results methods and development techniques from both theoretical and practical perspectives related to P2P Parallel Grid Cloud and Internet computing and to reveal synergies among such large scale computing paradigms P2P Grid Cloud and Internet computing technologies have been very fast established as breakthrough paradigms for solving complex problems by enabling aggregation and sharing of an increasing variety of distributed computational resources at large scale Grid Computing originated as a paradigm for high performance computing as an alternative to expensive supercomputers through different forms of large scale distributed computing P2P Computing emerged as a new paradigm after client server and web based computing and has shown useful to the development of social networking business to business B2B business to consumer B2C business to government B2G business to employee B2E and so on Parallel Computing is an essential computational paradigm for solving complicated problems quickly It divides a scientific computing problem into several small computing tasks and concurrently runs these tasks by utilizing parallel hardware and overcoming the memory constraint Parallel computing is an important part of cloud environment However there are significant differences between cloud computing and parallel computing Cloud Computing has been defined as a computing paradigm where the boundaries of computing are determined by economic rationale rather than technical limits Cloud computing has fast become the computing paradigm with applicability and adoption in all application domains and providing utility computing at large scale Finally Internet Computing is the basis of any large scale distributed computing paradigms it has very fast developed into a vast area of flourishing field with enormous impact on today s information societies serving thus as a universal platform comprising a large variety of computing forms such as Grid P2P Cloud and mobile computing
