Summary and resource sections at the end of each chapter give quick guidance to busy readers. Emil Davies, 1908 **How to Teach Handwriting** Frank Nugent Freeman, Mary Lorette Dougherty, 1923 Two mistakes of an opposite nature have been made in teaching writing. The first is to expect writing to grow up incidentally without giving the child any specific training in the writing act. The second is to suppose that teaching writing is some strange, mysterious process which can be mastered only by special teachers who have had a large amount of technical training. However, writing can be taught by the grade teacher, and there are strong reasons why it should be so taught. Writing is an activity which the child performs in much of his/her school work besides his writing lesson. It is necessary that all the writing be done properly and it is the grade teacher who must see that it is properly done. The Arm Movement Method of Rapid Writing C. P. Zaner, 1915 **Financial and Business Management for the Doctor of Nursing Practice** KT Waxman, 2012-11-05 Awarded second place in the 2013 AJN Book of the Year Awards in the Advanced Practice Nursing category. Finally a definitive financial management book geared to nursing professionals who need to know health care finance in non-CPA terms. Dr. Waxman has organized excellent authors who are knowledgeable about their topic and address the issues using real-life examples that make sense to nursing professionals. I am thrilled to see that Dr. Waxman has used her knowledge and skills in producing a book that has been on my to-do list for years.
